SENATOR PERKINS REFUTES CHARGES OF HIS ENEMIES

Never Received a Dollar From Any Corporation to Assist in His Election to Office.

WASHINGTON, March 19.—Senator George C. Perkins of California is one of the busiest men in the city. He attends every session of the Senate and after that body adjourns he always finds enough work to engage his time for several hours a day. Today a correspondent of THE TRIBUNE interviewed Senator Perkins about his candidacy for the senatorship. The Senator said:

"I have seen the editorial in THE OAKLAND TRIBUNE entitled, 'Senator Perkins Mendaciously Attacked.' The facts therein are correct in every respect, particularly so far as the refutation of the charge of my subservience to any corporate or individual interest as against the public welfare. I would not by my vote or voice do any railroad company or other corporation an injustice any sooner than I would the humblest citizen in the land, and I have sufficient confidence in my sense of justice and integrity to believe that I would not, to secure corporation support or influence, favor them in any measure which I did not believe to be just and right, and to which they were fairly entitled.

U. S. Senator Perkins

No Aid From Corporations

"I have not, to my knowledge, ever received, directly or indirectly, financial aid or one dollar's contribution from any corporation or company to aid in my election; which is, I think, more than some people who hold high political positions can say. In other words, I think I am so constituted that I can sit upon a jury, as it were, and act without fear or favor as an impartial judge in cases involving railroads, trusts, or corporations of any kind, or private individuals, and I challenge anyone to truthfully say that during the many years I have been in public life, either as State Senator, Governor, or in Congress, I have taken official action or cast a vote that I did not at the time believe to be for the best welfare of our country, and especially for the people of the State of California, whom I have the honor in part to represent in the United States Senate.

Candidate for Re-Election

"In submitting my name as a candidate for re-election I only ask in all fairness to be judged by my official record since I have been in public life. As you are aware, every vote in Congress is recorded in the Congressional Record, and by an examination of that official record during my term as Senator, it will be seen that my name is recorded either for or against every measure that has been considered. I have never evaded a vote, either viva voce or on roll call, and during the fifteen years I have been in Congress I have only been absent four days when the Senate was in session, and this absence was caused by sickness. Therefore, my critics ought to do me the justice to refer to my record and criticize my official acts in the Senate or its committees by which they may show, if they can, that my action in the premises has not always been in the interests of the people.

Refers to Criticism

"Referring to the charge of certain unfriendly periodicals or organs of rival candidates that I represent corporate interests instead of the whole people, it may not be improper for me to state that in the three times I have been elected to the Senate, a majority of the Republican nominees for the State Legislature voluntarily declared themselves to be in my favor, or were instructed by the conventions which nominated them to vote for me, if they were elected. I considered, therefore, that I was the only Republican nominee for United States Senator at that time before the people, and I made the campaign on those lines and received the endorse-

Miss Elkins to Be Made Princess in Her Own Right Before Wedding With Duke

LONDON, March 19.—A news agency publishes the following despatch from Rome: "The Corriere Della Sera asserts that Miss Elkins, on her marriage to the Duke of Abruzzi will be created a Royal Highness in her own right and that the sons of the marriage will have the right of succession to the throne."

NEW EVIDENCE STRENGTHENS DEFENSE

Trial of Miss Grace Eaton Proceeds Uneventfully.

There was an increased attendance in Judge Ogden's court this morning at the trial of Miss Grace Eaton on the charge of perjury. The throng was inspired by the desire to see a woman charged with telling an untruth when, as one of the judges of the Superior Court put it, almost every defendant who took the stand in his own behalf, perjured himself, and to prosecute the offenders would allow courts to try no other kind of cases.

In the present instance the accused is a modest, comely young woman who asserts her innocence and who is considered a victim of circumstances over which she had no control or which, at least, have been misunderstood.

The defendant appeared in a blue dress, with a black straw hat. Her sister, who was present yesterday, was not in attendance, the place of the latter being taken by the mother of the girl, a woman advanced in years who showed by a haggard appearance and by widow's weeds that hard times and bereavement had not passed by her abiding place. Sympathy for the accused was shown by the presence of Mr. and Mrs. S. J. Pembroke, who occupied adjoining chairs.

The session of the morning was uneventful. Sheriff Barnett took the stand for the second time to tell his story which it was thought had been completed in the early hearing. It appeared, however, that the prosecution's move tended simply to confound the case.

Strengthens Defense.

The only new feature developed was the fact that the sheriff had entered his home by the front door on Eighth street and, through cross-examination by Attorney McDonough for the defense, that there was a gate on Fallon street leading to the home of the sheriff and that on the east side of the house, at a distance of about twelve feet from the south end of the structure, there was a flight of steps on the outside of the building leading to the flat occupied by Sheriff Barnett and his wife.

The existence of this gate and flight of steps, the defense asserts, strengthens their contention to the effect that it was possible for the sheriff to have left his home without any person being aware of the fact, at the time at which it was stated Pembroke the defendant, and a young woman were seen talking on the northwest corner of Eighth and Fallon streets.

Assistant District Attorney Carey then took the stand and for about two hours read testimony taken in one of the preceding trials of which the present is the outcome.

2 FOOTPADS ASSAULT AND ROB S. F. JEWELER; GET \$225 Seized in Dark; 10 Block Chase Follows

SAN FRANCISCO, March 19.—J. E. Paulson, the well-known jeweler of this city, was held up and robbed by three footpads, who attacked him at Page and Steiner streets, while he was on his way home shortly before midnight.

The place selected for the holdup is a particularly secluded one. Paulson was walking toward Fillmore street when the three men jumped upon him. All wore masks and had their hats pulled down over their faces.

The jeweler was seized and held by two of the men, while the third went through his pockets, taking two gold watches valued at \$225, and \$3 in silver. After securing their booty, they threw Paulson to the ground and ran off.

As soon as he had gone Paulson yelled for help and Policeman C. F. Gush, who was standing at Page and Fillmore streets, heard the cries and seeing the fleeing men, the fugitives led him a long chase and after a run of close to ten blocks they escaped.

LAW LEGALIZING BETTING DOWNED

Albany Senate Committee Takes Stand Against Racetrack Wagering.

ALBANY, March 19.—With five members absent the senate judiciary committee today unanimously agreed to report, without amendment, the bill amending the Percy Gray law by striking out that provision which now virtually legalizes betting at race tracks by a civil suit. The committee considered the amendment submitted by the Jockey Club providing for the so-called English credit system, but did not adopt it.

'Reds' Kill Doctor; Burn Entire Family

ST. PETERSBURG, March 19.—Dr. Karavaleff, who was leader of the group of Toll in the second Duma, was shot to death yesterday by two men, in his house at Yekaterinoslav. A few days ago the doctor received threatening letters from the reactionary organization saying that his death sentence had been signed. On Monday of this week revolutionists at Nezhiy set fire to the house of M. Voloshky, a local leader of the League of Russian people. M. Voloshky was badly burned, but all the members of his family perished.

CHOKED, HER FACE CUT TO RIBBONS, SHE FAINTS UNDER RAIN OF BLOWS

Housebreaker, Interrupted in Attempt to Force Entrance in Monroe Residence, Commits Most Brutal Crime.

Miss Agnes O'Donnell, a comely young woman who recently came to Oakland from Salem, Mass., and is a domestic in the home of Charles G. Monroe, general manager of Taft & Pennoyer's store, was attacked yesterday morning by a burly burglar, whom she surprised trying to break into the rear of the Monroe home, 780 Fourteenth street. She was robbed, beaten and kicked into insensibility.

With her throat clutched so tightly in one of his hands she could not breathe, Miss O'Donnell vainly struggled, voiceless and helpless, in the housebreaker's iron grip, while he thumped her on the face, head and breast with his free fist.

Her Face Badly Cut.

The robber wore a large ring, made from a horse-shoe nail, on his right hand, and, as he rained blow after blow on his victim, the steel band, driven by the knuckle, slashed her face like a knife.

Miss O'Donnell bore visible evidences this morning of the brutal assault. Her throat still felt the effects of the robber's strangle-hold, and she could hardly speak above a whisper.

Her battered face, liberally covered with bruises and lacerations, and the numerous scalp wounds on her head proved that the robber's big fist and

iron-bound knuckles had done frightful execution.

"The young woman's left eye was swollen to the size of an orange, and the lids were black and blue with congested blood as the result of one of the burglar's heavy blows.

Victim Describes Attack.

"I attended the St. Patrick's Day ball last Tuesday night," said Miss O'Donnell, in recounting her harrowing experience this morning, "and about half past 2 o'clock I started home, accompanied by two women friends and their escort. They saw me safely to my door and we waited for a few minutes, and then they bade me good by and went down Fourteenth street.

"Hardly had my friends left me, then I was attacked by the burglar.

"I was about to enter the front door when I heard a strange sound and paused to listen. I thought at first that I might be a rat gnawing something in the back yard, but the longer I listened the more satisfied I became that a man was trying to rob the house and was prying the door or window on the back porch.

"I slipped quietly around the side of the house and paused at rear corner again, peering into the darkness ahead

ADVOCATES NEW PARTY MADE UP OF RAILROAD MEN

1,500,000 Ready, He Says, to Organize It.

CHICAGO, March 19.—The formation of a new political party with the million and a half railroad employees of the country as a "nucleus" to combat restrictive railroad legislation, both in the national congress and in the State legislatures, was advocated by John H. Clarke, counsel for the Nickel Plate system, at the annual banquet of the American Railway Engineering Association last night.

"Every industry in the country, except the greatest of all, agriculture, is organized to protect the capital, which is invested in it and the investors," said Mr. Clarke, counsel for the Nickel Plate system. "It should be an easy matter to organize the railroads, and there-

never was a more opportune time to attempt it. The 200,000 idle railroad men of the country would listen eagerly to a proposition to organize a great political party, and the 700,000 railroad men still working are ready to listen to any plan to guarantee means of livelihood to themselves and their families and to secure prosperity, 1908 they stood together solidly, when the cause was not so great and they can and will do it again.

"Only one man can stop the anti-railroad legislation rage which prevails and he is the voter. I believe we should organize railroad men today as a compact political party and I believe a great leader will arise who can effect such a great organization when the call is sounded."

Hotel Clerk Accused of Using Revolver to Rout Out Lodger.

SAN FRANCISCO, March 19.—David Lacher, night clerk in the United States Lodging House, 8 Washington street, was locked up at the Harbor police station by Policemen Wren and Davy at an early hour this morning on complaint of Patrick Doherty, who alleges that the clerk went to his room armed with a revolver and ordered him out in his night clothes, threatening to shoot him if he did not obey an offering no excuse for his request.

As soon as Doherty reported the matter to the police Wren and Davy were sent out to investigate and Lacher put up quite a battle before submitting to arrest.

He asserts that Doherty had been abusive to him when he hired the room earlier in the evening and that the man had gone to the wrong apartment.

7 MORE BLUECOATS ACCUSED OF GRAFTING

Degraded Aiter Being Picked
Out—One of Them Assaults
Accuser.

SAN FRANCISCO, March 19.—Seven more members of the police department, including two sergeants, have been formally degraded by Chief of Police Biggs on charges of extorting money from lodging-house keepers and others in the neighborhood of the Barbary Coast. This, with, Policemen Behan and Holmes, makes nine in all whose stars have been removed since the investigation into the charges of extortion began. They are: Sergeant Antonio F. Nolting, 1445 Devisadero street, Sergeant J. T. Donovan, 2823 Broderick street; John W. Evans, 844 Halght street; Maurice Behan, 279 avenue; Alfred E. Holmes, 1400 Powell street; David V. Sullivan, 4003 Eleventh street; James B. Cavanaugh, 3889 Twenty-second street; Jacob L. Nelson, 52 Steuart street; George W. Harrigan, 1730 Hyde street.

J. D. Samuelson, a lodging-house keeper, accused the men of extorting money from him. As he pointed out Sullivan as one of them, he was jumped with a blow in the face. Sullivan jumped from his post in line and knocked him down.

"You lie," he cried to the lodging-house keeper. The latter begged Chief Biggs to save him. Other policemen rushed between Sullivan and Samuelson and order was restored.

Twenty-nine policemen in all were lined up in the chambers of the police commission when Samuelson was asked to identify those whom he accused of extortion. They were in two rows, facing one another, and Samuelson went between them. He refused to do so after Sullivan had attacked him, and picked out his men from a safe distance.

The stars of the policemen were then removed from their coats, and they were suspended.

Each of the nine accused men maintains his innocence and declares that he will defend himself before the commission.

the porch. The robber did not hear me and stood below the parlor window, prying it up, with his back toward me and so engrossed in his work that I succeeded in stepping quickly up three steps and turning on the electric switch on the porch wall.

He thought that the burglar would become frightened if I should turn on the light, but he wasn't.

Face to Face With Burglar.

"When the switch clicked he turned at the sharp noise and stood facing me under the clear flood from the incandescent over-head.

"With a muffled curse he sprang at me before I could move or give an alarm.

"Don't yell or I'll kill you," he hissed in my ear.

"Then he said: 'Have you any money?'

"I replied: 'Yes, and I'll gladly let you have it if you don't hurt me.'

"Where is it?" he asked.

"In my stocking," I answered.

"Reach down and get it, then," he demanded.

Snatches Purse and Beats Her.

"I obeyed him. He snatched my purse from my hands, opened it, turned it upside down and dumped it into his open palm. A quarter, two dimes and two nickels rolled into his hand and lay glistening under the light. He gave a grunt of disappointment and started to pull out the leather flap which secured the inside pockets of the purse, but found nothing but a small book of postage stamps, a few of my cards, and the tiny pencil that I had torn from my dance card.

"He threw the purse into the air and turned on me with glaring eyes and his face distorted with rage.

"I'll show you how to butt in on me while I'm at work," he said, leaping at me and catching me around the throat with one hand while he clenched my wrists with the other.

"I couldn't scream. I couldn't even get my breath. He leaned his great bulk over me and forced my head back until my body was almost bent double. I was as helpless as a child in his big hands.

"Slowly he gripped his long fingers around my throat, tighter and tighter. I was losing my senses from lack of air and hung limp. Then he loosened his hold of my wrists and picked up the beat me about my face, head and breast, still holding me up by the throat with his other hand. Then he kicked me frightfully.

"He was still beating me when I became unconscious. That was the last I remembered until my people found me on the porch."

Miss O'Donnell described the robber as a large man, with rather shabby clothes, a sallow and dark, swarthy face. The police are searching for the man.

ment of the people at the ballot-box through their representatives elected to our State Legislature.

Good Work Accomplished

"If, by reason of my position on influential committees in the Senate, I have been able to materially assist in securing Congressional recognition and aid in developing the material resources of our State and promoting her commercial, manufacturing and maritime interests and assisting in obtaining appropriations for river and harbor improvements, aids to navigation, and for fortifications, military posts and navy yards, it would be unbecoming of me to make special mention of them. I will, however, venture to refer to some of the local interests of Alameda county which I have strongly advocated, while in the State Senate, as Governor, and since I have been in Congress. I have, in a degree at least, been instrumental in securing appropriations for the improvement of Oakland harbor and for our various national and State institutions located in Alameda county. I introduced and passed first through the Senate the bill for the public building in Oakland.

For the University

"I am also author of the bill creating the naval training station, and the depot for lighthouse supplies on Goat Island, which are within the jurisdiction of Alameda county. While a member of the California State Senate, I was the only member of the finance committee to make the minority report which recommended and secured the first State appropriation for the support of our State University at Berkeley. Also, I think Professor Wilkinson, superintendent of the Institute for the Deaf, Dumb and Blind in Berkeley, will bear testimony that had it not been for my efforts as chairman of the finance committee in the California State Senate, the appropriation for the erection of the splendid buildings of the institution over which he has with such great ability presided for these many years would have been deferred for several years.

Gives Salary Away

"But I will not weary you by enumerating the hundreds of other successful efforts I have made—and which were simply in the line of my duty. I do not ask or wish my election to be furthered by the people of my State unless my record in every respect will warrant their confidence in my integrity and patriotism. The position of United States Senator, representing the great State of California in the United States Senate is greatly to be desired, and it is a most laudable ambition in any one to aspire to this high place. To me it is only one of honor (as I gave all of my official salary to churches and for charitable and benevolent purposes), and it can bring me no honor or credit unless I am honorably elected and honorably and satisfactorily perform my duty toward the whole people of the State who have so often honored me with their confidence."

CHICAGO SUSPECT ACCUSED OF ATTEMPT TO KILL CZAR

Russian Police Claim He Threw Bombs

CHICAGO, March 19.—Suspected of having sought the life of the czar by throwing a bomb at the Tsarsko-Selo palace in St. Petersburg more than a month ago, Ankeles Zito, in a e of Kishinev, was taken into custody yesterday by the Chicago police.

The crime the police believe Zito guilty of took place within twenty yards of the palace. The instrument of destruction was thrown by a man closely resembling Zito. The bomb fell short of its mark and exploded, killing three others.

The bomb-thrower vanished. The Russian secret police, however, claim to have traced him to New York and then to Chicago, where they assert he lived at 346 Austin avenue. Zito was arrested at that address.

Repeated efforts of the police officials to examine Zito were futile. Although the man cannot speak English, an interpreter who questioned him in Russian could learn nothing.

At the Austin avenue house it was learned that Zito had lived there apparently without friends, and was well supplied with money. He did no work and spent the greater portion of his time reading in his room.

The authorities will cable St. Petersburg for full information relative to the man's early life.

ASKS VITAL QUESTION—NO ANSWER—MAN WAS DEAD

Man Passes Away While Giving Testimony

MOUNT VERNON, Ill., March 19.—The county court of Jefferson county was brought to a dramatic adjournment yesterday when George McBride died while seated in the witness chair.

McBride was the chief witness for the defense in a case on trial and had come in from his farm to testify. He had given his name, his occupation, his residence, and had told of his long acquaintance with the parties to the suit. The attorney turned to refer to some memoranda he had and after a minute or two resumed his examination of McBride, not noticing the fact that the witness seemed to be gazing abstractedly into space.

METCALF TESTIFIES IN SUBMARINE INVESTIGATION

Admiral Capps Also Roosevelt Denies
Appears Before
Committee.

WASHINGTON, D. C., March 19.—Secretary of the Navy Metcalf and Admiral Capps were among those who appeared today before the submarine investigation committee to testify in relation to the charges made by Representative Lilley of Connecticut that wrongful methods had been used by the Electric Boat Company to secure legislation in Congress.

Secretary Metcalf was questioned concerning the section of his annual report of 1907 concerning submarine boats, including the report of the board which conducted the trials of submarines and which recommended the adoption of the octopus type of boat. He said that in the same annual report recommendation was made for four additional submarine boats of the same type as those recommended as the result of the competitive tests, provided a more satisfactory type was not developed in the meantime.

Views of Subordinates.

"Please state your view as to the value of the naval service of submarine boats," suggested Representative Olmsted, and the secretary replied:

"I would prefer that the statement be made by the experts of the department. I made recommendations for the vessels and would not have done so had I not thought they were necessary."

Admiral Dewey, he said, signed the report of the board recommending submarine boats.

In reply to a question as to Roosevelt's attitude, Metcalf said that he did not have the President's message with him.

Secretary Metcalf stated that the contract for the Lake Company's boat was entered into by the department on certain guarantees. That company's bill was \$255,000 and the department agreed to pay \$465,000 for one of their boats to approximate 500 tons, no money to be paid on this contract until after the boat had been fully tested and had developed a speed equal to the speed of the best submarine boat owned by the government.

Had Authority.

"How was it the contract was made for a boat that was a loser in the competitive test?" asked Olmsted.

Some question was raised as to the discretion vested in the department and the department referred certain questions to the attorney-general who decided that the secretary of the navy had authority to enter into a contract with the Lake Company.

The contracts for submarine boats were made under the act of Congress authorizing the expenditure of a certain amount of money for submarines.

"Who was it that asked you to submit the questions to the attorney-general?"

"Former Senator Thurston, the representative of the Lake Boat Company."

"Did any member of Congress ask you to submit the questions?"

"I submit not."

Visited by Congressmen.

"Do you remember whether any member of Congress called upon you in favor of or in opposition to the letting of the contract to the Lake Company?"

"A number of Congressmen called on me—not with reference to letting the contract, but regarding the opinion of the attorney-general and the question of the discretion that was vested in me under the act."

"Who called upon you?"

"Of course, I am speaking from memory. I think Representatives Butler, Robbins, Loudenslager, Lilley, Hughes and Sperry and Senators Bulkeley and Brandegee."

"In the interest of whom?"

"They asked me about the attitude of the department. I told them what I had done and what I proposed to do. No suggestions were made by them to me in any way. They simply felt, they said it was to the interest of the government to have two companies build boats."

Denies Appointment.

Accompanying the affidavit was the following letter from President Roosevelt, denying that Archibald was ever appointed or employed by him or, so far as he knew, appointed or employed by any one connected with the administration:

"My Dear Mr. Lilley:—Referring to our conversation of this morning, Mr. Archibald never was appointed or employed by me, nor so far as I know was he ever appointed or employed by any one else connected with the administration. Some time about a year ago he came in and saw me for about two minutes and said that he was going to make an investigation of the question of submarine defense on the Pacific and particularly, I believe, in reference to Puget Sound, and that he was immensely interested in the subject, having been a war correspondent for various papers, and that he would like to send me a report of what he found."

"I answered him that of course I should be very glad to receive such a report from him or any other man who might investigate the subject. He sent a letter on the subject a few weeks later which I transmitted to the Secretary of the Navy. I have transmitted dozens of similar letters from men who have told me of investigations that they had made or of facts which they had found or assertions which they believe were important. It is the usual course; it was followed in this instance exactly as in all similar cases. Sincerely, THEODORE ROOSEVELT."

Abst Invidia.—On Tuesday evening there was a large attendance of the members of Abst Invidia, and a very enjoyable evening was spent by all. Brother and Sister Wharton and Sister Foster gave a very interesting report of their visit to the Orphans' Home, and were very enthusiastic in their praise of the manner in which the Home is conducted. On next Tuesday evening several candidates will be initiated.

Archibald Claims Credit.

According to the deponent, Mr. Archibald said to him later that he had visited certain cities and towns on the Pacific Coast and had reported thereon to the President; that he had appeared before certain chambers of commerce, boards of trade and other associations of business men and citizens in various cities and towns and States on the Pacific Coast, had addressed them upon the advantage to be gained by the purchase by the United States Government of submarine torpedo boats, and that certain petitions and addresses made to Congress and the members thereof by these different organizations were caused by the efforts of Archibald.

At a later period, according to the affidavit, Adams showed to Archibald a newspaper article on the subject of submarine torpedo boats wherein the Lake Submarine boat was criticised, and Archibald informed him that he was the author of the article; that he wrote the same and that the criticism of the Lake boat therein contained was incited and caused by a request to him made by Lawrence Y. Spear, an officer of the Electric Boat Co., and that the request was acceded to by Archibald because he (Archibald) was under obligations to Spear and the Electric Boat Company.

Denies Appointment.

Accompanying the affidavit was the following letter from President Roosevelt, denying that Archibald was ever appointed or employed by him or, so far as he knew, appointed or employed by any one connected with the administration:

SAYS BELL 'PHONE PLANTS ARE WORTH \$488,000,000

Vail Doesn't Object to Public Control

In the annual report of the American Telephone and Telegraph Company, which has just been issued, President Theodore N. Vail gives some interesting figures and discusses at length several features of the telephone business.

The business has shown constant gain during the year, and at the close there were 3,839,000 stations connected to the system, with a total of 8,610,593 miles of wire. The total number of exchange and toll calls for the year was about 5,997,000,000. During the year \$2,921,400 was added to construction, and in the past eight years \$51,335,655 has been so added.

At the present time there are outstanding 1,555,530 shares of stock of the company, 1,312,502 of which are held by 23,433 stockholders, an average of less than 56 shares each, the balance, 212,778 shares, being held by sixteen shareholders, each with 5000 shares or over.

Obligations \$453,865,000.

At the close of the year a valuation based on the replacement cost of the existing plant, without any allowance for franchises or for unearned increment, showed \$453,865,000. Against this there were outstanding obligations of the American Telephone and Telegraph Company and its associated companies, including capital stock at par in the hands of the public, of \$554,939,000.

These companies also had cash on hand, quick assets and investments of \$101,074,000, so that the obligations against the plant were only \$453,865,000, or \$34,431,000 less than its appraised value. The book value of the exchange construction is \$114 per exchange station, and the book value of all the property, including the long-distance lines, is \$192 per station.

For the first time a statement of the operating companies (that is, those companies which directly furnish the tele-

phone service) is given, with gross earnings for the whole country of \$120,753,200, operating and general expense of \$63,242,300, and maintenance of plant \$34,665,700. The balance available for dividends was \$22,845,100, out of which dividends amounting to \$15,206,100 were declared, which seems reasonable when the value of the plant is considered.

Rate Cutters Fail.

President Vail calls attention to the exaggerated stories of the profits made by early investors, and shows how these stories, coupled with the general business activity of the last few years, have made it possible for promoters to launch telephone companies pledged to low rates for exchange service and high dividends to investors.

Many of these companies are asking relief from the conditions they readily accepted, and for increased rates, and reorganizations are now in progress.

These companies found that repairs and reconstruction, which with a new plant are at a minimum, steadily increase, and that many times while the plant is growing rapidly these charges are lost in construction.

Sooner or later these charges must be provided for out of current revenue, and if dividends have been paid without first making adequate provision for maintenance there can only be an end in disaster. Under these conditions it would seem as if any plan to the public by competition based on low rates had not made up for the loss of capital invested.

Defines Fair Rates.

The problem of rates and rate regulation is discussed at length, and it is shown that the policy of the Bell companies in any controversy as to rates is to make a complete showing of the cost and value of plant and service, and that there is nothing to conceal. Fair rates are all that is asked for, and the belief is expressed that with full knowledge of all the circumstances the public will readily acquiesce in such rates.

Fair rates are, defined as those which maintain the plant in a state of high efficiency, provide fair wages for employees, give a fair return on money invested, and promise a fair return on new money provided.

Any revenue beyond these requirements could, after allowing for proper reserve, be used for the benefit of the public, but the company should be allowed to retain a part sufficient to stimulate the most efficient and economical management.

Public Control.

As regards public control in the absence of competition the report says: "It is not believed that there is any serious objection to such control, provided it is independent, intelligent, considerate, thorough and just, recognizing, as does the Interstate Commerce Commission in its report recently issued, that capital is entitled to its fair return and good management or enterprise to its reward."

The value of telephone service to the subscriber is analyzed, and it is shown that while a connection with the exchange may be termed a convenience for all that subscriber, it is a necessity for all other circuits. It is the ability to communicate with others which makes the exchange valuable. It is the use of other circuits that your own.

The value of any exchange depends on the area covered and the maximum number of desired individuals who can be reached, and the measure of the value depends upon the use of the exchange system as a whole.

Rates must be so adjusted that no rate shall bear unduly on particular individuals or classes, and that at some rate connection with the exchange is within reach of anyone who can add to the value to others of the service, and that, as a whole, the revenue shall be large enough to operate and maintain the plant efficiently and give a sufficient return on the capital.

No Butting in on Wire.

In discussing long-distance service the report calls attention to the fact that during each conversation the circuit is devoted exclusively to the service of the user. Long-distance communications require the presence of the two individuals concerned at the ends of the line, and they are therefore confined largely to the hours when it is certain that each can be definitely located.

The result of this is that the long-distance business is crowded into a very small part of the day, and that much of the time the facilities provided are lying idle. There is no way of crowding the business during the times of heavy demand, as in the case of a message can pass at a unit.

Diagrams are given showing how irregularly the business is distributed throughout the day, and the statement is made that if business could be subjected to a half hour's delay the facilities required could be reduced one-third at least.

Universal System.

Attention is called to the universality of the Bell system and its occupation of the field, first in the urban districts, keeping pace with the demand, then later in the semi-urban and rural districts.

These smaller communities are being developed both directly by the operating companies, and indirectly by local companies connected by toll lines with the Bell system.

The change of policy during the year by which the Western Electric Company now sells standard Bell telephones to all who may desire them has given a fresh impetus to this branch of the business.

For that tired feeling, for that listless, for that approach of Spring there is nothing so good as a few doses of the Bitters. It also cures Colds, Grippe, Sick Headache, Indigestion or Dyspepsia.

ELKS TO HOLD ORPHEUM NIGHT

Lodge Committee Plans Special Features to Be Added to Regular Bill.

The Elks of Oakland will make a night of it at the Orpheum on Wednesday evening, March 25. Details of the affair are now being taken care of by the committee of Elks, who expect to make the event a notable one in the history of Elks entertainments.

The Elks, with their friends, will occupy almost all of the entire floor of the theater. Prominent officials of the order will have boxes. The Orpheum management has set aside for the Elks nearly 1000 seats, and these are now being disposed of by committees of the local lodge to members in Oakland.

There will be some special features on the stage, the nature of which will not be disclosed until the performance is on. The bill will include Edwin Stevens and company, Armstrong and Verne, an English comedy duo, Daisy Harcourt, a music hall artist from London, Loney Haskell, a monologist; Brown and Navarro, character change artists; Mr. and Mrs. Clarke, banjoists; Della Fox, and Fred Walton, the "monarch of silent comedy."

'BURGOMASTER'

Catchy Airs and Good Singers Win Audience.

"The Burgomaster" is, like old wine, it gets better with years. Last night its opening was marked by a good audience filled with enthusiasm and free with their applause and encores.

Georgie Ade as the burgomaster was the feature of the play. His honors were shared by Ruth White, a summer boy. She sang well and was a great favorite.

Although trimmed with up-to-date jokes it is the same old merry-making play and the same catchy music. "The Burgomaster" is filled with catchy airs and the work of the chorus was excellent. The tale of the plot is tonally good. The tale of the plot is woven around the historic character of Peter Stuyvesant, Dutch governor of New Amsterdam, whose motto was: "Don't do anything today that you can't put off till tomorrow."

It is opened with an old-time scene in New Amsterdam, and Stuyvesant and his henchmen take copious drinks of whisky which had been doctored for the Indians and go to sleep. From then on the story deals with their adventures in the up-to-date world.

"The Burgomaster" continues the balance of the week.

I. O. O. F. LODGE REFUSES \$150,000

Detroit Organization Would Not Sell Property for Large Sum.

DETROIT, March 18.—Having no use for the money, Washington Lodge of Odd Fellows of this city has rejected an offer of \$150,000 for its fifty feet of property next to the hotel St. Eclair on Randolph. The lodge reserves only a portion of the building for its lodge rooms and collects enough rentals from the remaining portions to pay all the expenses. In fact, it is said that there have been no dues collected from the members for many years.

The hotel management desires to extend its building and make an offer to the lodge. But when the matter came up for consideration the members asked what they could do with the money, since the lodge already had everything it could desire and without expense to the members. The decision was reached that the lodge was perfectly satisfied with the location and that money was no object.

CIRCUS RIDER GOT TALENT FROM PARENTS

Famed Ernestienne to Appear Here—Norris & Rowe's Show.

How many of the girls are there, one wonders, who have felt a decided, if secret, yearning to be one of the lovely ladies in airy, fluffy, spangled costumes who rode so gaily and lightly around the ring at the circus on a barebacked horse, receiving the applause of the vast audience and the deep deferential bows of the ring master. There seemed nothing quite so wonderful, so full of glamor, so really worth the while in life, and it took advancing years or a good many fumbles at private practice to convince one that it was not quite so easy as it looked when the lovely lady did it. Upon later investigation it develops that of all the occupations open to women, there is nothing more strenuous, more exacting, and more difficult to master and to practice.

So complete must the training be that it has become almost a hereditary occupation. A notable example of this is Miss Rose Dockill, known professionally by her maiden name, the star rider with the greater Norris & Rowe circus, which will appear in this city Thursday and Friday afternoons and nights at the corner of San Pablo avenue and Thirty-third streets.

Slender, But Strong.

Rose Dockill is a tiny, quiet young woman, with a big blue eyes and the appearance of frailness, which is contradicted when you see her ride and realize the muscular effort required for the fifteen minute act every afternoon and night.

Miss Dockill is the daughter of Madam Dockill, who was a rider of international fame in the early seventies, and R. H. Dockill, also a well known bareback rider. She was taught to ride by her mother when so young that she cannot remember her first appearance in the ring.

As a compensation for the absorbing nature of the circus rider's life, she receives excellent pay, ranging according to ability, from \$200 to \$350 a week.

SPLENDID PLAY FOR YE LIBERTY

Miss Fletcher to Play Leading Role in "Sweet Nell of Old Drury."

Of interest to all who enjoy the best in the drama, is the prospect of seeing that beautiful play, "Sweet Nell of Old Drury," at Ye Liberty Playhouse next week, with its first performance on Monday evening.

Perhaps no play of many years has made such a distinctive and effective appeal to the public. Artistically and sentimentally beautiful, the piece is sure to live as one of the masterpieces of the English drama.

For a long time Manager Bishop has contemplated giving his patrons this rare treat, but he has waited until he could secure the original version of which Nell Gwynne is the heroine. Many plays have been written with the name of Nell, but none of the others can be compared with that to be presented at Ye Liberty. It is the one played by Nellie Stewart.

GEORGE ADE AS A CRITIC

George Ade the writer has been down in Washington trying to get Congress to pass a law which will put a tax on every man, woman and child in the United States who buys a phonograph record for the benefit of the composer of the music. Now, the Supreme Court has just declared that these phonograph records, music box sheets and the like are not within the Copyright Law.

Ade has recently come out in a newspaper interview which has been reprinted generally throughout the country in which he says:

"You have no idea of this phonograph business. Out through the corn-belt every family has a graphophone or phonograph. The farmer comes in at night, takes off his boots, hangs his feet on the stove and says: 'Boys, turn her loose.' The boys turn her loose and the darned thing plays the whole evening."

Ade thinks the farmers shouldn't have the right to do this without paying a tax to the composer. He doesn't mention the fact that folks who live in the big cities have the opportunity to go to concerts and other forms of entertainment every day and night, and from these the composers get nothing. Ade and those who want the law changed propose to tax the farmers, every mother's son of them, if they want to use the much abused graphophone which brings a little variety and entertainment to the home during the long evenings and helps make the dull monotony of the farm life more bearable.

Well, we wonder what the Members of Congress are going to do about it? Our guess is that when it comes to a vote the farmer and his phonograph will win out.

TO PRODUCE DRAMA BY S. F. WRITER

"At the Macdonough Sunday matinee and night Lee Willard presents his newest success, "The Country Squire," a play which has a wide reputation on the coast as an interpreter of character roles and his work in his new play is the best he has ever done.

Willard's portrayal of the leading role is a wonderful piece of character acting. "The Country Squire" is an old-fashioned comedy, permeated with humor, the loquacious "Country Squire" is the author of "The Country Squire" is a wonderful piece of character acting. It is refreshing in this day of imported problem plays to be able to listen to an American play by an American author, a play mostly of plain folk within the mountains of Vermont.

DAISY HARCOURT

DAISY HARCOURT WANTS A MOTHER

Pretty English Music Hall Comedienne Hopes to Find One Here.

When Daisy Harcourt arrives in Oakland at the Orpheum next Sunday afternoon, all the way from London town, the chappies of this city will have a chance to see what a real English music hall comedienne is. Miss Harcourt is declared by theatrical men to be "the real thing" in this line.

Incidentally, when Miss Harcourt arrives, she will begin a search for a mother. Notice that it is not said that she will begin a search for "her mother," but merely for "a mother." The Orpheum theater management has endeavored to assist Miss Harcourt in advance of her coming to locate a desirable "mother," but thus far has met with no success.

It apparently will be necessary for Miss Harcourt to conduct this mother search herself.

She Lost Mother. Miss Harcourt is in need of a "mother" because one appears to be indispensable in her business. In her case the "mother" is more of a companion than anything else, but the little English music hall artist has grown accustomed to speak of such a companion as "mother," and so the term is always used by her.

In Denver last week Miss Harcourt lost her "mother" who had traveled with her from London and all over this country as a companion. The elder woman was obliged to return to England because of her own daughter's death, and so Miss Harcourt found herself alone in this broad land without a companion of any sort.

If there are any stray mothers in Oakland who desire to be a "mother" to Miss Harcourt, they will probably find a warm welcome from that young woman when she arrives at the Orpheum next Sunday.

TALKS ON TEETH

By The Rex Dental Co., Inc.

Can Pyorrhea Be Cured?

That is a question which dentists have been asking themselves for years, and the answer has invariably been—NO. When we came along and said that it would be cured, and that we could cure it, and could point to hundreds of cases that we had cured as indisputable proof of our contention, the dental profession to a man almost took issue with us.

"There is no cure for it," they cried. And when we wanted to know why they told us that they had all tried and failed to cure it.

That was the answer THEN, and it is the same old story NOW, for dentists who are not posted on the triumph of our AL-VE-O-LAR method. Old Uncle Jagger dozed to his dying day that "De Sun Do Move"—you remember.

There are none so blind as they who will not see.

The reason why we dwell at such length and so forcibly in all of these talks on teeth, in the Pyorrhea question is this: Unless we could cure the cause of loose teeth and make them tight and the gums healthy and normal, we could not make a successful piece of work with our Alveolar Method of replating teeth in the jaw without using bridge plates in cases where pyorrhea is indicated.

MR. SNYDER SAYS HIS PYORRHEA IS CURED.

HOLLYWOOD, Cal., Sept. 1, 1907. Rex Dental Co.

Dear Sirs—This is to certify that for eight years I was troubled with Pyorrhea. My teeth were very sore and red and suffered great pain. I interviewed my dentist, but they all told me that nothing could be done, and it was with a great deal of skepticism that I called on you several months ago.

After two days and a considerable thought, I made up my mind that I would place my case in your hands, and am greatly pleased to say that you have amply justified my confidence in you. I am very glad that I made up my mind to try your treatment when I did.

After a few applications the redness subsided and the pain left me. Today the gums are as usual as they ever were and I can truthfully say that I am cured.

I appreciate what you have done for me, and thank you for it. I am a butcher at the above address, and will always be pleased to recommend your treatment for Pyorrhea. Very truly, H. H. SNYDER.

We have found that in almost all cases where teeth were missing in the jaw there were some loose teeth or diseased gums.

In some cases we have nothing but roots to work with. The first thing we do is to go after these loose teeth and make them tight, and when that is accomplished the rest of the problem is easily solved. There is no mystery about the Alveolar Method. It is complicated work and beautiful, but after all it is science and not a miracle that we perform. It is the very same of dental science to put back teeth in the jaw and make them perform the functions of natural teeth without using a plate, and the secret is ours. We do this work and then guarantee it so the burden of the proof is entirely on our shoulders.

If you are having teeth trouble and want immediate and permanent relief, come to our office in the Rex Building, Twelfth and Washington streets, for a free examination of your mouth. If this is not possible at this time, then send for the Doctor's book, entitled "Alveolar Dentistry," which goes into particulars. The reading of that book brings us patients from all over America.

CHARTER DAY WILL BE BIG EVENT AT U. C.

Entire Program for Festivities, Just Announced, is Very Lengthy, One.

BERKELEY, March 19.—Complete plans for the Charter Day celebration at the University next Monday were announced this morning by the sophomore class, the members of which always supervise the festivities on this anniversary. The ceremony of transferring the care of the U. C. to the sophomore class, the freshmen of this term, will occur in the morning. Word will be carried off to the "C" on Sunday to feed a big bonfire that will be lighted near the top of the "C" hill. The new coat of arms will be given a special guard of honor, to see that no one carries away the hill or the "C" before the Sophs are relieved of their responsibility.

Day's Program.

Monday morning the men of both sophomore and freshman classes, will meet at Hearst Hall at 9:30. From there they will proceed in a body to the "C," where the exercises will begin promptly at 10 o'clock. The speakers are to be President Wheeler, President of the Board of Trustees, E. R. Hallett '05, R. P. Merritt '07, and J. M. Burke '08. H. A. Savage '10 will make the presentation speech for the sophomore and the freshmen will make the speech of acceptance. It is planned to have a suitable dined prepared from sheepskin parchment which will be given to the freshmen as a proof of their title. The original deed which was destroyed in the San Francisco fire. The deed will be sufficiently large to provide space for signatures of class presidents for at least two hundred years to come.

BEAUTIFUL MILLINERY DISPLAY

This Spring's Millinery as seen at Friend's opening is truly a wealth of floral beauty. Very imaginative flower has been deftly copied by the tasteful flower-maker. We see even the beautiful water lily, the wisteria and roses in abundance. While the shapes are hard to describe being almost anything that one fancies in black and colored straw.

Friend's Millinery store on San Pablo avenue was crowded all day being the first day of their grand millinery opening. A gorgeous array of fashions. Frames in all shapes and styles were prominent while the styles of trimmings were pretty and varied. This enterprising firm is out of the highest rent district and is enabled thereby to offer the most exclusive styles in hats at extremely low prices. Here ladies can effect large savings by paying one-third less for the Spring millinery than has been the custom hitherto. It surely will repay the ladies to ride an extra block or two on the cars to secure such beautiful trimmed hats at such moderate prices as this pushing millinery store offers.

Electrolights Installed.—Work was begun this morning on the electrolights to be placed on each side of Adeline street from Woolsey to Felton streets. The lights will be placed three to the block and will illuminate the business section of the South Berkeley. It is the intention of the South Berkeley Improvement Club to celebrate the completion of the work with a big banquet.

SAILORS STUDENTS' GUESTS DOCTORS IN BITTER FIGHT

BERNICE CARPENTER. MISS DAVIS. TWO POPULAR CO-EDS AT THE UNIVERSITY OF CALIFORNIA.

Senior Class to Entertain the Jackies

BERKELEY, March 19.—The senior class of the university, at a meeting last night, decided to co-operate with the general committee in charge of the reception of the fleet. Both men and women declare they will lend every effort to the success of Berkeley day. It is up to the college people to carry through one of the most important features of the whole extravaganza, the reputation of the senior extravaganza in the Greek theater on the night of May 14.

"PULL DOWN THAT FLAG," SOLDIER TELLS FRAT BOYS

But Freshman Raises Irish Flag Again

BERKELEY, March 19.—"Pull down that flag. No banners but the stars and stripes should fly here." Al Perkins, first sergeant of Company B, of the National Guard, walking into the Psi Upsilon fraternity house on Euclid avenue yesterday afternoon and in stentorian tones commanded that a green banner flying from the flagstaff should come down instantly. Sayre McNeil, the debater and assistant graduate manager, V. M. Alvord expostulated. There was a rush of students from other parts of the house to the hallway where the guardman was preparing to proceed to the top of the house and strip the colors from their halyards.

Alvord was for a talk first. He urged that the flag was an Irish flag, and had been hoisted in honor of St. Patrick's day. "Pull down that flag," he said, "the Stars and Stripes should fly here. This is America," insisted the guardman.

McNeil and Alvord demurred but finally consented to remove the cause of the row.

THREE BOYS HELD FOR BURGLARY

"I'm on My Way to Prison," Says One, Demanding Sentence.

George Quinn, twenty years of age, Charles Hansen and Harry Brown, each seventeen years of age, are under arrest at the city prison for the burglary of the Southern Pacific Company's branch ticket office at the foot of Sixth avenue, 337.65 and a number of tickets having been stolen. The three accused young men were taken into custody on Monday while Brown was caught at the Oakland pier last night. In the police court this morning Quinn insisted that his preliminary examination, arraignment and everything else in connection with the case be waived and that he be sent post haste to San Quentin. To the police he said that he knew he was on the way to State's prison and the sooner he was sent there the sooner he would be a free man. Quinn has spent the greater part of his young life behind prison bars. For five years he was in the Whittier Reformatory and for three years in the California State Prison. Hansen and Brown were all on probation at the time of their arrest.

'Chuck Wagon' Chef Shot by Sheriff

HUGO, Colo., March 19.—John Heyman, familiarly known as "Dutch" John, who became celebrated as the man who prepared the famous "chuck wagon" breakfast for President Roosevelt on his last Western trip, was perhaps fatally shot here last night in a quarrel with two men. He is now in a hospital in Denver for treatment. Deputy Sheriff Lou Brockway and Bert Cook had words with Heyman, who was employed as watchman at the Union Pacific station. It is said that Cook drew a revolver on Heyman, and while the latter was disarming Cook, a shot was fired at him. The bullet penetrated his body. Brockway is under arrest charged with firing the shot.

Health Board in Alameda Is at War.

ALAMEDA, March 19.—Dissension is rife in the board of health. Two members, Dr. F. W. D'Evelyn and Dr. E. M. Keys, composing the minority of the sanitary body, have intimated that unless Dr. J. Emmet Clark, president of the board, is deposed they will resign, and Mayor E. K. Taylor declares that the policy of the majority of the health board, Dr. J. Emmet Clark, Dr. Harold E. Miller and Dr. J. K. Hamilton, has been one of inactivity and inefficiency and that something will have to be done and done quickly to restore harmony.

The chief executive of the city asserts that the board of health has violated a provision of the city charter in increasing the salary of Health Officer Dr. L. W. Stidham from \$85 to \$238 a month and the salary of food and dairy inspector Dr. Tom Carpenter from \$85 to \$125 a month in order to pay them for extra work done in the past. He has held up the salary warrant of the health officer for the board of health, which provision requires that all claims against the city for more than \$200 have to be approved by the mayor before they can be passed by the auditor and paid by the treasurer.

Milk Regulation Trouble.

One of the matters upon which the health board split was the pure milk ordinance. Dr. D'Evelyn consistently stood for the strict enforcement of this law, while the majority of his colleagues, it is said, favored "letting the milkmen down easy." Since Dr. D'Evelyn became a member of the health board a year ago every milkman arrested for alleged violations of the pure milk ordinance has been convicted. At a recent special session of the board of health held thirty-six hours after a regular meeting, a delegation of dairymen with an attorney, appeared and argued for modification of the law regulating the keeping of dairies and the selling of milk. The session resulted in a wrangle during which Dr. D'Evelyn demanded that the president of the board suppress the dairymen's arguments and leave the matter of altering or amending the milk regulations to the board of health, where Dr. D'Evelyn said it rightfully belonged.

Mayor Gives Views.

In a statement dealing with the rupture in the health board, Mayor Taylor said: "It is true that friction exists in the board and that something will have to be done at once to restore harmony and secure efficiency. The board of health has been inactive and I am displeased with the manner in which it is proceeding. Not only has it been inactive but it has clearly violated the city charter in giving Dr. Stidham and Dr. Carpenter a raise in pay to cover back work said to have been done. Dr. Stidham's salary was increased from \$85 to \$238 a month and Dr. Carpenter's from \$85 to \$125 a month and still the health department is accomplishing practically nothing. I know that Dr. D'Evelyn and Dr. Keys are dissatisfied with the policy of the majority, but they have not yet said to me that they will resign unless Dr. Clark, president of the board is removed. Dr. D'Evelyn is progressive and energetic and desires to see the board of which he is a member do something worth while. I feel as Dr. D'Evelyn does. I have been criticised for statements made concerning sanitary conditions near Park street and in other parts of the city that are a disgrace and for which the board of health is responsible. That body has repeatedly failed to comply with requests to remedy the conditions complained of and is at present neglecting to do things that it should do."

BURGLAR SAYS HE MADE MISTAKE BY ENTERING

Thought He Was in Another House; Has Bad Record.

Isaac Chub, a negro burglar who broke into the home of Joyce, 1674 Pacific street, and who was subdued after a fierce struggle with Joyce by being struck over the head with a heavy cane in the hands of Mrs. Joyce, who went to her husband's assistance, was before Police Judge Samuels this morning and a preliminary examination was set for next Wednesday. Chub has been in similar trouble before, having been arrested in San Francisco in 1905 for the theft of a purse and \$8 in coin from the home of Mrs. Ellen Doherty. He was held for trial to the Superior Court in San Francisco county, but succeeded in going free. He denies that he is a burglar, saying that he made his way into the Joyce home by mistake.

SWINDLER POSES AS "CONSIDINE'S BROTHER"

SAN FRANCISCO, March 19.—Representing himself to be W. F. Considine, a brother of the New York Considine of theater circuit fame, A. P. Cooper is alleged to have obtained \$10 from H. S. Krybaum, proprietor of the hotel at 210 O'Farrell street, yesterday, and also to have departed without paying his room rent, amounting to \$15. Krybaum asked the police to arrest Cooper.

CAPTURED 15 MINUTES AFTER ROBBING CAFE

SAN FRANCISCO, March 19.—Policeman Farrell, Crowley and Gifford, of the Southern station, captured two burglars at 3:40 o'clock this morning, within fifteen minutes after they had robbed the restaurant of James B. Bokas at Sixth and Harrison streets to which they had gained entrance by forcing an iron gate.

Society ...IN... Berkeley

BERKELEY, March 19.—The North Berkeley Kaffee Klatch celebrated St. Patrick's Day with an entertainment at the home of Mrs. A. Allen, 2026 Hillegas avenue. Mrs. Burton Windom and Mrs. Wilbur of San Francisco were the guests of honor. R. J. Ward, an octogenarian of 81 years, read a history of St. Patrick. Each guest was presented at the door with a shamrock. The rooms and tables were decorated in green. The music was rendered by an Irish orchestra escorted on a miniature stage, hidden behind banks of shamrocks. The toasts were quotations and verses from famous Irish authors. There were thirty-five guests present.

The members of Chi Omega entertained at their annual faculty dinner Tuesday evening at their chapter house on Euclid avenue. Presiding as hostesses were Miss Ruby Haskell, Miss Helen Pinkham, Miss Albert Vollmers, Miss Mildred Martin, Miss Ethel Denny, Miss Anna Pilger and Miss Emma Badger. With there in the reception line were Mrs. Agnes McDougall and others. The guests were Professor and Mrs. R. S. Holway, Professor and Mrs. W. M. Hart, Professor and Mrs. G. R. Noyes, Miss Lucy Sprague, Dr. Jessica Flexotto and Professor Henry Morse Stephens.

Mr. and Mrs. C. W. Clough entertained the members of P. E. O. Tuesday evening at their home on Fulton street. Among those present were Mr. and Mrs. Walter Parker, Mr. and Mrs. Newton Alexander, Mr. and Mrs. E. H. Day, Mr. and Mrs. H. W. Brunk, Mr. and Mrs. Bennett, Mr. and Mrs. Lorenz, Mrs. Miles, Miss Myrtle Miles, Mrs. Hoyt, Miss Parker, the Misses Stearns, and a number of others in addition to the host and hostess.

"Doctor, Not Lawyer."

Dr. Clark, president of the board of health, said: "There is not, in my opinion, any serious friction or differences in the board. I do not know of any impending changes in its personnel. We are trying to do the best we can and to do all that is possible. We were legally advised that we could raise the salaries of Dr. Stidham and Dr. Carpenter. Our advice was wrong in part, as we ascertained later, but that was not our fault. We are doctors and not lawyers and were unaware of the provision of the charter, which is said, we have violated. Dr. Carpenter's pay was increased because he is now devoting all of his time in directing the sanitary operations. There never was any official action taken looking toward the removal of City Chemist A. A. Cunningham. His regular pay was \$50 a month. This was raised to \$100 a month when he was required to do extra work. When his extra work was completed the chemist's salary was restored to its original figure."

WATCHED BURGLAR WORKING IN ROOM

Afraid of Attack if Children Awoke, Young Woman Kept Still.

BERKELEY, March 19.—The police have as yet no clue to the burglar who visited the home of Mrs. Louis Titus at 2500 Durant avenue on Monday night last and walked away with pins and rings to the value of \$500. Mrs. Titus had as a guest at the time Miss Cora Cullem of Los Angeles. Miss Cullem was sleeping with her hostess and awakened when the burglar began searching the dresser and robbing the jewel cases of their contents. The man was masked and carried a dark lantern. Miss Cullem watched his movements and, afraid that he would make some attack on the children of Mrs. Titus, who might be expected to scream if they awoke, she kept quiet.

Bold Thief Operating.

The burglar took his time. He was evidently aware of the fact that Mr. Titus was not at home, for he moved with more or less indifference about the room. After he was satisfied that he had secured all the jewelry available the man deliberately walked through the bedroom door and down the stairway. Miss Cullem heard him retire by way of a back window and, feeling relieved, awoke Mrs. Titus. The two women, braver with the lights turned on and in each other's company, prepared to make an inventory of their losses. They then informed the Berkeley police.

Chief Vollmer believes the burglary was the work of a man who was well acquainted with the habits of the Titus family and the details of the interior. Mrs. Titus did not see the man at all and consequently could give no description of him. Miss Cullem saw only the features of the lower portion of his face and those only by the reflection of a light from a dark lantern.

LANDSLIDE SETS TOWN ON FIRE

Two Lives Lost and Many Endangered by Sudden High Gas Pressure.

PITTSBURGH, March 19.—Two Chinese and three Americans have perished, scores of persons are suffering from inhaling gas, eight places were either set on fire or were the scenes of explosions, and many persons narrowly escaped death early today as the result of a landslide, which demolished the gas regulator house of the Manufacturers' Light and Heat plant at Ben Avon, a suburb, causing a sudden very pressure of gas.

Fire was first discovered in a Chinese laundry. The ringing of the fire bells awakened practically every family in the suburb who found their homes were rapidly filling with escaping gas. Flames were shooting high in the air from the tops of many chimneys and gas jets and walls were blistered by the excessive heat.

In number of instances incipient fires had already started. Before the gas could be shut off, hot water heaters in several houses exploded causing considerable damage. It is believed that the residents had been awakened by the fire bells, many would have succumbed to the deadly fumes of the gas.

MAID EXPOSES GIRLS' PLOT TO KILL MISTRESS

EDNA WRIGHT. HELEN ANDEFREDD. TWO OF THE TALENTED GIRLS WHO WILL TAKE PART IN PRODUCTION OF "TROUBLE AT SATTERLEE'S."

But It's All a Joke in Amateur Play

"Trouble at Satterlee's" is the title of a play to be given by a number of young women under the direction of Mrs. Carrie Froese-Snyder at the Cadet Armory tomorrow evening. And the title does not belie the action.

The trouble occurs in a fashionable boarding school, when a few of the maidens start an innocent flirtation with a passer-by. Their little experience and gossamer will not hold them, and they are very interesting show based on what happened with the stranger.

It is while rehearsing in secret for this play that they got into difficulties. Kathleen, an Irish maid, hears one say that she is going to elope with the coachman, and as the coachman at the school is already entangled in an affair of the heart the servant is somewhat perturbed by the information she has gained.

In addition to this Kathleen hears one of the amateur mimmers discussing a plot to kill the mistress of the house. The whole proves too much for her and she rushes off to tell Mrs. Satterlee, because she believes her mistress is marked for death and that the plot includes the intention of carrying off her own coachman.

After much explanation and no little embarrassment the whole thing is cleared up and the girls go back to their studies with a firm determination to do no more flirting from the school windows.

Those who take part are Edna Wright, Kathleen, Ida Hitchcock, as "Kathleen," Isia Biven, as "Miss Satterlee," Alice Burton, as "Marion," Clarice Brou, as "Bertha," and Edith Harris, as "Mildred." The "ghosts" are Edna Eckert, Marie Rinsinger and Miss Andefredd.

SAN LEANDRO WILL NOT GET LIBRARY AND ART GALLERY BY WILL; ONLY LAND

Late Dr. Thrasher Bequeaths Real Estate to Town

The intention to provide the town of San Leandro with a library building, an art gallery and a pavilion and children's playground is found in the will of the late Dr. W. T. Thrasher, who died in San Leandro September 28, 1907, as the result of injuries sustained by being run down by an electric car. But after he had made this will Dr. Thrasher changed his mind and decided to his wife nearly all his estate, so that the town of San Leandro will not benefit by the bequest he made it for the erection of a library, an art gallery, and the creation of a pavilion and children's playground.

Dr. Thrasher was a pioneer farmer of San Leandro. His estate had a value of \$50,000 when he made deeds of it in favor of his wife, and consisted chiefly of valuable land in San Leandro. When he died his will was not offered for probate because it was thought that he had decided away all his property. However, it was discovered that he had 350 shares of stock in the Suburban Electric Light Company, worth \$3500, and it became necessary to probate the will. It was filed in the county of Alameda, and was probated by Lorraine Woodward, C. Q. Rideout and J. N. Frank, who are named executors in the instrument.

Not for a jail.

Dr. Thrasher, in his will, gave the

town of San Leandro two pieces of land. One is bounded by Ward street, the Southern Pacific right of way, the Smith subdivision and Davis avenue; the other is to the west of this tract. The first tract was intended for a library, and the second for a pavilion and playground. The home of Dr. Thrasher is bequeathed to the town as an art gallery.

None of this property was to be used as a jail, however. The will reads: "But under no condition shall any portion thereof be used for the erection of a penal institution, house of correction, almshouse or kindred purpose."

Besides these bequests of land Dr. Thrasher also gave the town of San Leandro \$15,000 to be used toward erecting the buildings he planned. All this property was given to his three executors to hold it in trust for the town.

Conditions were attached to these bequests, however. One was that Ward street should be graded, macadamized and made into "one of the finest streets in the county from Grand avenue on the easterly side to the library buildings on the westerly end thereof," and made to look like a continuation of Grand avenue.

Dr. Thrasher intended that his wife should have a life interest in all this property, and the bequests were made operative only upon her death.

Uniformed Bodies to March on Gala Day

The parade committee on the entertainment of the coming fleet has asked, through the press, the commanders of all uniformed bodies in Oakland to send their addresses to the parade committee, room 29, Bacon block.

It also asks that the number of men who will parade on the morning of May 9 be also stated. In this manner the committee feel that no uniformed company in Oakland, Berkeley or Alameda, desiring to participate, will be slighted.

The committee has voted to ask for a large detachment of the regular army of the service; also men from all branches of the navy. Governor Gillett and staff will be invited.

Among the organizations which the committee desires to notify of their intention to participate in the parade are the Mexican War Veterans, Spanish War Veterans and similar military, semi-military and civic bodies in uniform. No organization not in uniform will be in the parade.

Line of March.

The various divisions will form on the east side of Broadway, beginning at Second street, where the first division will form, its right resting on Broadway; the second division will assemble on Third street, its right resting on Broadway and so on.

The line of march is as follows: Broadway, from Second to Seventh, to Washington, to Fourteenth, to Broadway; then south on Broadway, on the west side of the street, to Seventh, countermarching on the east side of Broadway to Fifteenth street, where the reviewing stand will be located; then proceeding to Twentieth street or the Boulevard to Adams Point, where a grand barbecue will be enjoyed by those participating in the parade.

It is necessary that commanders of all uniformed companies notify the

committee at the earliest possible moment, so that arrangements may be made to provide for all in the parade and for the proper marching order.

The committee hopes to have Secretary of the Navy Metcalf, Admiral Robley D. Evans, Governor Gillett and his staff among the reviewing officers. Realizing that there will be thousands of more people in Oakland at this time than ever before the committee on parade will ask that the streets upon which the procession will march be closed to travel from 10 o'clock in the morning until after the review.

In the interval between the two sessions, there will be a banquet served in the Sunday school room. The public is cordially invited to attend the convention.

LOOKS FOR AID FROM DAUGHTER

Wife of Late Confederate Major
Without Funds in This
City.

Mrs. Matilda J. Chambers, mother of the late W. H. Chambers, who was shot in the hand by Dr. W. S. Halpern of Miproe, is now an inmate of the Chabot School of Domestic Arts at 56 Sixth street.

Mrs. Chambers is penniless and is in need of clothing and funds and a home. She has absolutely no place to put her head and has no relatives in this city with whom she may live.

Attorney George DeGolla, who was formerly secretary of the Chabot Home, was instrumental in placing Mrs. Chambers there. He considers her most deserving.

Widow of Army Officer.

Mrs. Chambers is in hopes of receiving a pension from some southern society, as her husband, the late Major John H. Chambers, was an officer in the army of the Confederacy. She is seventy years of age and was born and educated in the South. She has but one dress, the remainder of her garments being made with her trunk at the Sanawick house as security for lodging. She says she doubts if she will ever be able to pay for the trunks. Her daughter, Mrs. Good of Denver, who is the wife of an army officer, is unable to help her. Mrs. Chambers, and she is expecting aid from her.

MAYOR TAYLOR ISSUES A NOTICE ABOUT S. F. HEALTH

Danger of Disease Spreading
Rapidly Disappearing.

Mayor E. R. Taylor of San Francisco and Dr. Rupert Blue have issued the following notice:

San Francisco, March 18, 1908.

To the Public: The undersigned are gratified to state that the plague attack which was so much improved and is still improving, there having been since the first day of January of the present year, no cases of plague reported and but three clinical cases of plague with only one death since the beginning of the year.

That makes the situation peculiarly and distinctly satisfactory is the thoroughness of the work of the city health department, and the citizens generally in the work of sanitation. There is every prospect that by the time the present year is closed the city of San Francisco will be cleaner than it ever has been in its history.

It is quite evident to us that the danger of an epidemic of plague is very remote.

Mayor of San Francisco.

May Recall Nuncio: Vienna.—The controversy between the government and the papal nuncio with regard to a speech made by the nuncio at a meeting of ecclesiastical law here, in which he criticized certain doctrines of the Catholic Church, threatens to bring about strained relations between the two states.

The papal nuncio in published statements reiterates that he demanded the release of the prisoners, but the government insists that he acted on his own responsibility and without instruction. It is believed that the outcome of this admission will be the recall of the nuncio.

Rate Again Reduced
BY BANK OF ENGLAND

LONDON, March 19.—The rate of discount of the Bank of England was reduced today from 3 1/2 to 3 per cent.

Beyond causing a feeling of cheerfulness among the public, the reduction of the rate of discount made little improvement in prices.

The reduction for today, making the rate 3 per cent, is the first since the year, caused little surprise on the market, as the bank's large stock of coin and bullion amounts to \$100,000,000.

The forthcoming distribution of government dividends will have a marked effect on the monetary position and the retention of the high rate of interest is justified. Caution, however, was advocated against undue weakening of the market for discounts in view of the weakness of continental exchanges on London and shipments of gold to Paris next week.

HUNDREDS THROG STORE AT MILLINERY OPENING

Display Attracts the Fashionable Women

A fairer, brighter season of spring never broke upon Oakland than that which was ushered in a week ago. The brightness and warmth of the season argue a glorious summer time, and it must be said, that a more perfect summer than that which is experienced in Oakland is not to be found in any part of the world.

The same may be said of the season of spring, which is now upon us, and for the millinery have been preparing for months.

The activity with which the opening of the present season was welcomed was shown today by the hundreds of women who waited for the unveiling, so to speak, of the windows of Kahn Brothers at the northeast corner of Washington and Twelfth streets. At the windows of that store there was a throng of women when the interior was disclosed to the pedestrians as one spectator retired from the scene another took her place, and justly so for the reason that the display of spring fashions for women there visible was never exceeded on the Pacific Coast.

There were fully fifty feet of display space in the windows, and that space was improved to the utmost. The interior was decorated with drapes, flowers and ferns. There were busts of women in pedestals and columns which were set off with head-gear of the season, and there were also life-size figures adorned with the latest creations of the draper and the milliner. The assembling air in this department were accomplished by Mr. Mitchell, but the rest was done by the millinery department of Kahn Brothers, which for years has been in the lead in this respect.

The inspection of the windows was only a prelude to that of the millinery department, where the throng was unprecedented. There was a justification for this for the reason that, while in this particular line Kahn Brothers have always had the display was never so fully equipped in this part of the country.

There was really a small army of women attendants on hand and each of them had all she could do to attend to patrons. Millinery openings mean, usually, millinery assistants and such, however, was not the case in this instance.

Bogus Reform and the Rabbis.

Commenting on the actions and language of Judge Dunne, who from the bench denounced Rabbi Nieto and Rabbi Kaplan as "willful, malicious falsifiers," the San Jose Mercury makes these sensible observations:

"Pretty strong language this, even from the peppery Dunne; and uttered at a pretty late hour since the public had long before come to the conclusion that the testimony of the Rabbis was the truth, the whole truth and nothing but the truth. The fact that Ruef is a Jew and probably, a supporter of the Jewish churches is neither here nor there, for these gentlemen prize infinitely more their standing in the community than the mere liberation from trouble of a fellow-Jew. Thus the ill-mannered assault upon their veracity by Judge Dunne, instead of discrediting them, will rebound to his own discomfort and humiliation. Very few men will deliberately perjure themselves; much less will two clergymen, who have nothing to gain but everything to lose by so doing.

Ruef's own unsupported statement might reasonably have been questioned, and his affidavits, as against those of the prosecution, disbelieved; but supported as they are by unimpeachable testimony the public is hardly to blame for believing them in preference to the counter affidavits of the men bent on punishing him. Therefore if the prosecution has suffered the loss of prestige and now finds the tide of public sentiment turned against it the blame is its own. The zealot in any contention is only successful in so far as his actions are above suspicion and his words confined to the plain truth."

Our San Jose Mercury might have stated the matter more briefly and plainly in these terms:

They who undertake to administer justice should be just.
They who charge themselves with the enforcement of the law should proceed lawfully.

They who set themselves up as examples of honesty should be honest.

They who inveigh against crookedness should be straight.
They who declaim in favor of truth should beware of falsehood and deceit.

They who assume to purge a city of wrong should not inflict wrong nor practice wrongful methods.

They who claim to be prophets and ministers of righteousness should be righteous in intent and righteous in method; neither should they become partners with infamy nor league themselves with thieves and liars.

They who set out to suppress boodling and punish boodlers should not begin by granting immunity to public plunderers and continuing them in public office.

They who profess to be angels of light should avoid the ways of darkness and deeds which seek the concealment of night and the mantle of secrecy.

They who seek to deprive others of liberty and reputation should not proceed by stealth, dishonor and evil practice nor employ agents for hire who reek with infamy.

True justice does not play with clogged dice and false balances nor league itself with crime and dishonor. It does not colloquy at night in secret places with thieves and connubate with judges to suppress the truth. It does not resort to the tricks of the Artful Dodger nor use the bludgeon of Fagin under pretense that it is the sword of Gideon. Jury fixers do not turn reformers for nothing, and it is not surprising to find them pursuing the pathway of crime claiming it to be the highroad of virtue. Just as the Savior said, "figs are not gathered from thistles."

Oakland's rapid growth is attested in many ways, but the most convincing proof of it is the steady increase in the earnings of the street car system. For the first fifteen days of March this year the receipts were nearly \$6000 in excess of the first fifteen days of March, 1907. While the times at present are dull compared to the corresponding period of last year, the aggregate volume of business on the street railway lines is larger. This is due to the increase in population evidenced by the great number of new dwellings. No healthier or more permanent growth can be imagined. This city is not filling up with transients nor is business here dependent upon transient travel. The growth is on a solid basis and the business, like the population, is substantial and enduring.

The San Francisco policeman who knocked a man down for pointing him out at the instance of the Chief of Police as one of the patrolmen who have been levying blackmail on the leas of mankind should be dismissed in disgrace from the force. He may be innocent of the charge of blackmail, but his conduct in assaulting his accuser in the presence of his superior officer proves him to be an unfit man to wear the police uniform. Nor does it tend to exonerate him from the charge brought against him. His act in striking down his accuser was indicative of a ruffianly desire to punish and intimidate the man for making his guilt known.

The time has come to contribute, each his mite, for the fund with which Oakland expects to entertain the officers and enlisted men of the great fleet on May 9. The committee in charge of the collection of this fund has among its members some of the leading men of the city. It's now a clean case of contributing. If the amount is small, give it like a prince, and it it's to be a princely gift, give it like a man. Every one must feel that their local pride and the honor of Oakland as a host is at stake.

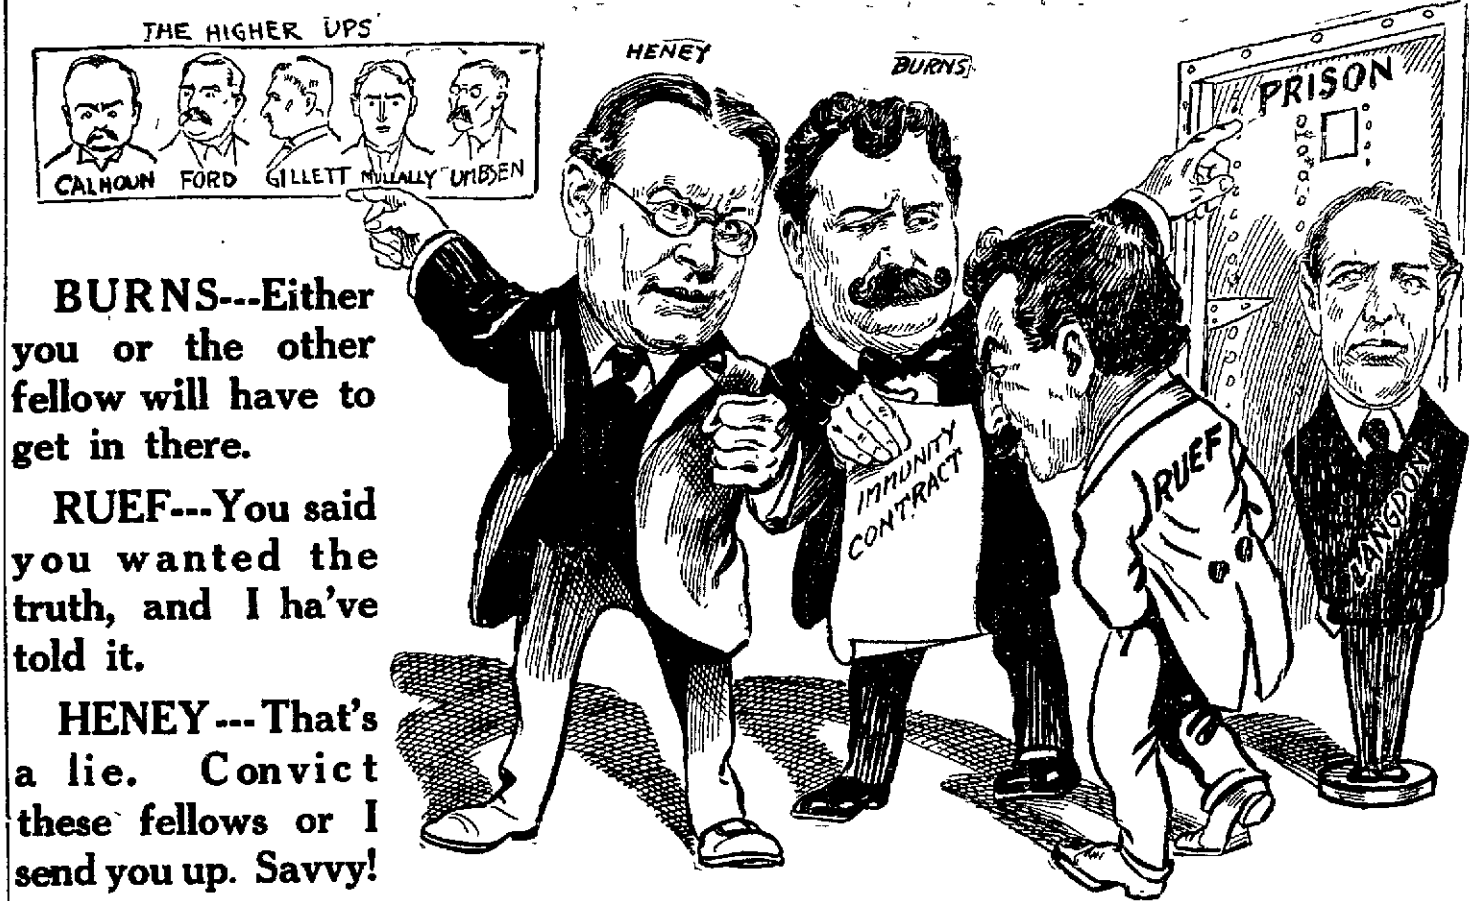

Harry Orchard got his in the shape of a death sentence with a recommendation from the bench of a commutation to life imprisonment. His fate will probably make Big Jim Gallagher chuckle with glee. Gallagher was given a contract of immunity before he went on the stand or became a tout for William J. Burns.

The proposed plan of making each one of Oakland's "finest" pay \$2 a month into the police pension fund has come to naught. The city under its charter must pay each police officer \$1200 a year. The pension fund will have to struggle along under the statute which created it.

The steam beer revolt at Stanford is spreading and threatens to become serious. It may yet result in the professors fighting a series of duels among themselves after the fashion of the Russian generals at Port Arthur.

Iowa has joined the Taft procession, along with Ohio, Missouri, Nebraska, Oklahoma and Minnesota. And still the Hughes boosters insist that the Taft boom is waning.

The Rabbis he denounces as prevaricators are the same ones that were taken to the midnight meeting in Spreckels' automobile. Two lies won't make a truth.

BURNS--Either you or the other fellow will have to get in there.

RUEF--You said you wanted the truth, and I have told it.

HENEY--That's a lie. Convict these fellows or I send you up. Savvy!

Oil Monopoly Beaten in All of the Courts in the State of Texas

When the Supreme Court of Texas on Wednesday declined to grant writs of error in both branches of the litigation involving the Waters Pierce Oil Company it placed the stamp of its approval on every contention made by the Attorney-General of Texas.

Mr. Davidson's victory is complete, overwhelming, and final as to Texas jurisdiction. It not only banishes an ancient offender from the confines of Texas, but declares that it shall pay to the people of Texas for its misdeeds the sum of \$1,623,000, the largest judgment ever recovered in this State in any court—a sum sufficient to run the entire State government for half a year.

The action of the Supreme Court, in effect, declares

That the Waters Pierce Oil Company was readmitted to Texas through fraud and perjury.

That it began violating the law from the moment of its readmission, and continued that course unintermittently down to the very day on which the suit was filed against it.

That Pierce's affidavit as to the independence of his company was untrue at the time he made it, and has always been untrue.

That the oil company did not re-enter the State with "clean hands."

That Pierce never "bowed to the law," but that, on the contrary, his apologists bowed to and sought to honor a lie.

That the documentary evidence offered by the Attorney-General was not "forged."

That the Waters Pierce Oil Company was at the time of its readmission, and at all times since, controlled by the Standard Oil Company.

That the proof of guilt in some cases, and the presumption of it as to all others was correct and lawful.

Thus have the courts of Texas, from the lowest to the highest, pronounced in solemn judgments a sentence of guilt against a corporate offender, which has for seven years found defenders and apologists among corrupt Democratic officials and venal newspapers wearing the sheep's wool of democracy to cover and to conceal the real Standard Oil wolf—Houston Chronicle.

Possibility of a Distinct Class of Collegebred Americans Developing.

Statistics gathered at Yale suggest the possibility before many years of a distinct class of college-bred Americans. The figures show an interesting number of graduates who are the sons of graduates of Yale and other colleges. The proportion in recent classes is not as large as it was 100 years ago, when a Yale class consisted chiefly of the sons of clergymen and lawyers, but has recently shown a rapid increase. In 1903, the last year included, twenty-eight per cent of the graduates were sons of college bred fathers.

It will be generations before a majority of Americans, even of those whose families have long been in this country, will be college bred. What will happen first and last for a long time will be the existence of a great number of families in which the members, from father to son, perhaps from mother to daughter, will have college training. Will it be a "select" class, divisible by a perceptible line from the rest of the population, or an indistinguishable scattering of groups and persons through the fairly well-to-do elements, as it has been generally in the past? The question is largely part of the other question:

Does a college training really make a person different from those who lack it? And that question is still debated and debatable—Philadelphia Ledger

A. B. CHASE PLAYER PIANO

—The Only Player-Piano That Does Not Enlarge or Change the Piano

One might be in a room with an A. B. Chase Player-Piano for hours, even using the piano by hand, and still never suspect its being a player-piano.

There is no playing mechanism above the keyboard, no increase in size or style of case.

There is no opening in the upper front panel for the music roll—the tacker-box is folded underneath the keyboard when not in use and is practically out of sight.

As an ordinary piano, to be played by hand, the A. B. Chase Player-Piano meets every advantage of the A. B. Chase Piano—with the player mechanism in operation it will do all that any piano-player has ever done and much more.

The A. B. Chase Player-Piano possesses eleven advantages possessed by no other similar instrument—Cash or terms or fair exchange for other players or pianos.

**Fruitvale and Melrose
After the Tribune
Prizes.**

Oakland is not the only place looking for THE TRIBUNE'S baby beauty prizes. Suburban towns are particularly active, and today Melrose and Fruitvale are again entered. From Melrose comes Theresa Schlosser, aged eleven months, daughter of Mr. and Mrs. John Schlosser. Donald P. Tower, aged three years, is a Fruitvale baby. His parents are Mr. and Mrs. M. A. Tower, 211 School street.

Wife Gave Husband BED AND BOARD

NEW YORK, March 19.—After being married only a few months, William Burkitt, of Irvington, N. J., went to Newark and caused the following notice to be published in an evening newspaper:

My wife, Mrs. Lillian Burkitt, having left my bed and board, I will not be responsible for debts contracted by her.

(Signed) WILLIAM BURKITT.
Feb. 24, 1908.

Mrs. Burkitt countered promptly and hard yesterday with this card:

"My husband, William Burkitt, of No. 57 Speedwell av., Irvington, never owned my bed, and my board I was compelled to earn at the washstands."

MRS. BURKITT.

Neither husband nor wife could be found to tell what the next move will be.

Jealous Woman of 66 Leaves Husband of 70 BECAUSE He Spoke of His First Wife

CINCINNATI, March 19.—Marriage at seventy years of age is the worst form of lottery, according to Louis Fritz, who recently filed suit for divorce from his sixty-six year old bride of six weeks.

Fritz's first wife, with whom he lived happily for thirty-seven years, died four years ago. On January 23 he married Margaret Bigelow, of Windsor, Canada.

"She lived upstairs in my house here four years ago," said Fritz, "and I thought she was an angel. I married her for company in my old age. I wanted a companion—some one to amuse me. My bride got angry and threatened to leave me on the third day, and on the seventh day she did leave me. She got angry because I mentioned my first wife's name. When she ordered me not to mention it again I told her, 'No, you can't make me do that—the wife I lived so happily with for thirty-seven years.'"

WHEN THE MAN BALKS

This is leap year. It is impossible to imagine a more comical sight than a man trying to say "No" nicely to a fair suitor. And what of her feelings after the refusal?

Would not any woman worthy the name, says Lena Ford in Madame, prefer to go to her grave with her passion undischarged than to subject herself to that moment of humiliation? It is not courage that is wanted at such a time, but a barefaced stoicism, a delightful conceit which is the salvation of — Well, not of women as a rule. It is no humiliation for a man to be refused.

IN SOCIETY

MRS. HENRY ALDERSON.

Miss Ray Wellman became the bride of William Farley at a pretty wedding celebrated last evening at the home of the bride's mother in Fruitvale. The ceremony was performed by Dr. J. K. McLean, president of the Pacific Theological Seminary, in the presence of half a hundred relatives and friends. The house decorations were pink and white with a shower bouquet of lilies of the valley.

The bride wore a gown of white satin crepe elaborated with lace and a long tulle veil caught with a wreath of orange blossoms. She carried a shower bouquet of lilies of the valley.

The maid of honor, Miss Emma Wellman, wore a simple gown of yellow messaline satin and the six bridesmaids, Miss Vera Ransome, Miss Elea Marwedel, Miss Emma Grimwood, Miss Chrissie Taft, Miss Grace Sanborn and Miss Laura Sanborn were all gowned in pink and white of similar design.

George Bredigan acted as best man. The bride was given into the keeping of the groom by her brother W. E. Wellman. A wedding supper and informal reception followed the ceremony after which Mr. and Mrs. Farley departed for a honeymoon trip in the southern part of the State.

The bride is the attractive daughter of Mrs. R. A. Wellman of Fruitvale and has devoted much of her time to study as well as to society. Mr. Farley is the son of Mr. and Mrs. Hugh Farley of Washington who were guests at the wedding last evening. He has only been here about a year and is very successful as a civil engineer. Upon their return from a honeymoon trip the couple will occupy the new home which awaits them in Claremont.

WEDDING DATE.

The marriage of Miss Vincie Giambruno to Silvio Giannini will take place at the home of the bride March 23. Rev. Winter will officiate. Miss Carrie Trahan will attend the bride, and J. Giannini, brother of the groom will act as best man. Miss Matilda Giambruno, sister of the bride, will be flower-girl. The bride will be given away by her brother Isidore Giambruno.

The bride-to-be is an attractive girl, and a graduate from the Polytechnic High School. Silvio Giannini and his bride will make their home in San Francisco, after returning from their honeymoon.

ACTRESS SHOTS WOMAN CIRCUS PERFORMER TO DEATH

NEW YORK, March 19.—Antoinette DeFranne, twenty years old, the actress, 103 East Eighty-ninth street, who shot dead her friend, Mrs. Mitchell Morok, a circus performer, accidentally, she says, in the latter's apartment, 215 West Forty-second street, recently, was arraigned in West Side Court and sent before Coroner Dooley, who held her in \$2500 bail for the inquest.

She said that when she saw the revolver lying on the mantelpiece she did not know that it was a real weapon. It was a patented French pistol with an almost invisible trigger and hammerless and looked more like the stock of a broken gun or rifle. Miss DeFranne said she was looking at the strange gun when her hand touched the concealed trigger.

After the accident, people from the house crowded into the room and not knowing that she took the dead woman's jewelry with the intention of turning it over to the latter's husband she claims.

EFFIE MADE MARY AN "INJUN" WEDDING GIFT

NEW YORK, Feb. 25.—The temperature in the Supreme Court at Mineola, L. I., dropped two degrees below the Fairbanks point while Justice Garretton and a jury listened to the testimony in one of the most unusual actions that has come up for adjudication down Long Island way.

Mrs. Effie Adelaide Erickson, an heiress, told the Court that she had loaned \$500 to Mrs. Mary Elizabeth Osborne Adams in 1903 and received back only \$100. She wanted \$400, with interest. Mrs. Adams said that she had received the money from Mrs. Erickson as a wedding present and there had never been any expressed agreement to pay it back. Both women live at Cedarhurst, L. I.

The plaintiff and defendant grew up together, went to school together and were inseparable until they changed their names. Yesterday they entered court at about the same time and sat on opposite sides of the room. Their glances at each other caused judge and jury to turn up their collars.

"Don't tell any one of the girl," Mrs. Adams testified. Mrs. Erickson cautioned her when she gave her the \$500. "I assured her I wouldn't and told her there was a time when she would be glad to see me when she needed money I would be delighted to pay her kindness."

FACTORY WORK MARS WOMAN'S BEAUTY

CHICAGO, March 19.—Unless factory and shop conditions are changed materially America is threatened with the appearance of a race of women like those of the peasant class of Russia—according to Professor Edward A. Ross of the University of Wisconsin. Professor Ross made this assertion during an address before a public meeting held under the auspices of the Illinois Federation of Women's Clubs in Bowen hall, Hull house, last evening.

Three sessions during the day were devoted by one of the last speakers as "distinctly gloomy." Speeches by social settlement workers, clubwomen, sociologists, and working women portrayed a sad condition in woman's industrial world.

After quoting from statistics to show that one-third of the women of the country between the ages of 15 and 25 are engaged in industrial occupations, Professor Ross said:

"With many of them it is only temporary, but do you realize that for the few years they are at the loom or in the shop the conditions surrounding them are not shaped or influenced by anybody who has any interest in them?"

Girls Fail to Realize Danger.

"Who is to protect them during this epoch? There is no father, no mother, no husband. They must protect themselves. Can they? They may strike for higher wages, but are they aware of the consequences of what they are undergoing? Do they realize the harm that will come from standing in one position all day long, the damage caused by sitting for hours on a stool without any back support, the irreparable wear of the breathless rush and strain?"

"They have no option as to work or idleness. The rent must be paid. Food must be bought. The rush is growing greater every year. In the old days of the factory girl one of the most capable was selected as pacemaker and was paid extra money, according to the results she achieved."

"Now the machine sets the pace. Where in 1895 a certain machine made so many stitches, in 1905 it was making twice as many, you were told by an earlier speaker. And still the girl is expected to keep up to the pace. If she doesn't, she is told to step aside and let another girl see if she can stand the strain."

"I don't know that limiting working hours to eight a day will accomplish a cure, but it will help. The great thing would be to lessen the strain."

"What are its results? Society is paying dearly for the bargains it is re-

Petticoatless Patagonians ARE Women Who Want TOBACCO

NEW YORK, March 19.—Capt. A. E. Gove and his crew of twelve, who took the tug E. G. Reynolds through the Straits of Magellan to La Boca, on the other side of the Isthmus, for work on the Panama Canal, returned recently on the Colon from Cristobal.

He had some striking adventures to relate. The tug carried no stop chest and each man had only tobacco enough for himself. When the tug started through Smyth's channel in February Capt. Gove said that from the waters which seemed to have no sign of life there suddenly popped into sight a maze of canoes, each with one or more Tierra del Fuegians aboard, most of whom were women. Their hands went to their mouths and they worked their jaws, signifying they wished tobacco.

After repeated entreaties the women became furious. Each canoe had a supply of charcoal, which the petticoatless Patagonians hurled at the sailors with accuracy and force. For two days the tug was in the channel, and throughout its extent the charcoal fusillade continued the crew's faces, and the tug being blackened by the smudging missiles which benefited only the cook.

The Reynolds met the torpedo boat Hottila at Pernambuco and the fleet at Rio, passing it in a fog. The tug's time was fifty days and nineteen hours, beating the Catherine Moran by fifteen days.

During the afternoon meeting Miss Sophronisa P. Breckenridge discussed the liability of employers for accidents to their workmen. The conference adopted a resolution asking Governor Deane to appoint her on the commission for an investigation of factory conditions which was authorized by the legislature last November.

Fads of Brides

English brides have many "brilliant ideas" when it comes to introducing novelties into their wedding arrangements. At a fashionable London wedding only a few days ago preceding the bride walked a little girl who bore in her arms a white satin kneeling cushion for the bride. Another instance recently noted was the presence of a couple of tiny boys in pink. They were the only attendants the bride had chosen to follow her. In a third instance the maid of honor wore the kilt, a dress uncommon enough to make a picturesque effect, to say the least.

Mrs. Harriette Wood Johnston, a lawyer in New York, is in partnership with her husband. Mrs. Philip Carpenter is another New York lawyer who works with her husband in partnership.

STRAIGHT--PLACE--SHOW MR. STORK PLAYS JOE VICKERS ACROSS THE BOARD

NEW YORK, March 19.—"It's a girl and a beauty," enthusiastically announced Dr. Frederick Levy, 602 West One Hundred and Thirty-seventh street, to Joseph Vickers, 191 St. Nicholas avenue.

Vickers was proud and happy to find himself the father of a fine 3½-pound baby girl.

They were congratulating each other when the nurse excitedly called the doctor back into Mrs. Vickers' room. In a few minutes Dr. Levy somewhat doubtfully informed Vickers that he was the father of another girl as fine as the first.

Suddenly there was another call from the bedroom.

Fearing the worst, Vickers awaited the next bulletin.

"It's a boy this time, and a big one," announced the doctor, "but there won't be any more," he added considerably, seeing a look of despair come into the father's eyes.

So Vickers smiled as a man smiles when he is making the best of things. "I'm a Democrat, but I'll call him Teddy," he told the doctor. "It's the only way I see to get even."

At last accounts the mother and her twenty-five pounds of babies were doing very nicely, thank you.

Ran Away with Hired Man

NEW YORK, March 19.—Christ Episcopal Church at Brentwood, L. I., is without an organist and Charles Freund, hotelkeeper, is looking for a hired man. Emily, his nineteen-year-old daughter, was the organist and Peter Walter the hired man.

Walter had been in Freund's employ a month when a few days ago, he and Miss Emily announced to him their intention to marry. There was a stormy scene, which ended in Freund showing them to the door and saying that it was closed on them forever. They departed hand in hand and are believed to have been married.

"Yes, my daughter left with Walter," Freund said last night. "I told her that the man had been divorced and could not legally marry again in this State. Finally I told her to go with him and never return."

"I did not observe any signs that they had fallen in love with each other. There was absolutely nothing to arouse my suspicions. She can never come under my roof again."

Miss Emily's brothers have decided to employ private detectives to trace the couple, and swear vengeance on the man who has taken away their sister.

A problem in which good women of New York are taking interest is the right court, from which women accused of crimes and found not guilty are sent out into the streets, often as late as 3 o'clock in the morning. Rooms have been rented where girls may be kept until they can return to their own homes, if they have them, or until employment is found for them.

ATTELL AND NELSON SETTLE DOWN TO HARD TRAINING

Nelson Will Be Able to Make Weight Easy--Sullivan Still After Stanley Ketchel--Kaufman and Mustaine to Meet.

BY EDDIE SMITH.

Big Sam Berger is happy, not because he is selling his share of collars and cuffs, or not because the weather is fine, simply because he has at last signed a match for this month's fight date that will have the appearance of being one that will appeal to the public.

Sam has had his share of troubles in making this match and was forced to give up 50 per cent of the gross gate receipts when he had figured on giving only 50 per cent. In talking with the new promoter yesterday, he expressed himself as satisfied with the result of his dickering, and said that he was of the opinion that he had selected the best attraction of the lot.

Berger has the contest all figured out in his mind as being one in which Nelson will be the aggressor from the very jump, trying at all times to catch the clever Hebrew with his whirlwind rushes in the hope of wearing him down, and during all this time Abe will be giving an exhibition of his boxing skill that will startle the masses.

There is no doubt but that Sam is right in the way he has the contest staged up, but he has forgot to mention the fact that for some years Attell and Nelson have both been of the opinion that one was better than the other, and a strong undertow of rivalry has existed.

Attell has strengthened this opinion by boxing with Nelson at Miller's when he was training to meet Moran. At that time Attell and Nelson met two or three times in three-round sparring exhibitions, each time the first round was taken up with easy sparring in which the jobs of the feather-weight had hardly time to work on the good nature of the Dane.

Can't Box Easy.

The second round became warmer every minute, and the third was a ragged hurricanade. This pair of fighters just can't help fighting every time they meet, for the jobs of Attell will always be more than Nelson will stand for. The Dane is not a built right to take a beating if he has anything to say about it, and although Attell and Nelson have been pretty good friends of late, the contest between the pair will be a bitter fought one from the start.

Attell realizes that to get the decision over Nelson he must keep right at him and take every round on points from the first to last. Nelson will be the aggressor and the spectators can expect some mighty clever defensive work when the Hebrew fighter is being pressed.

Nelson seconded Attell in his contest with Owen Morton and Attell seconded Nelson in his ten-round affair with Jimmie Britt at Los Angeles, and each know the other's strong points.

Jack Gleason has tendered Nelson the

use of the Occidental Athletic Club at the ball grounds, and the Battle has accepted, and will do his training there. Nelson weighed yesterday at 135 1/2 pounds, so it should be easy for him to make the required 132 pounds at 6 o'clock.

Sullivan Won't Stop.

If persistency will get a fighter a match, then put Jack (Twin) Sullivan down on the cards in the near future. Jack will not take no for an answer from the Kitchell management, and is still after the Montana Fighter in the hope of getting a match with him at the middle weight limit of 155 pounds at 3 o'clock on the afternoon of the battle.

Jack has made up his mind that he has solved the way to beat this fellow Kitchell, who disgraced the Sullivan family by beating Mike (Twin) so quickly, and by taking many turn downs to set him off the trail of the strong hard-hitting Ketchel.

Ketchel is not going to meet Sullivan unless he has to, for he is of the opinion that Sullivan is not only a mighty tough fellow to beat, but one that he will get little credit for defeating, while if he is beaten himself it would mean a setback at this time that he can not afford to risk.

Ketchel is not a bit backward in saying that Sullivan is a good fighter, but he also says that he is a junkie and a foul boxer who is liable to hurt one for life. Sullivan takes all this talk as being evidence that Ketchel is afraid of him, hence the \$500 check that Mike is carrying around that he says Ketchel can have any time he is fortunate enough to stay the limit of twenty rounds with the larger of the twins.

Ketchel wants to fight Papke, and as the dispatches state that Papke was not hurt as badly as reported there is still some chance to get the two together. Papke is going on the road for a short time, but the show business is not as productive of money as the real fight, and he will soon be ready to get back into the harness. Papke cleaned up \$5000 on the Kelly fight and by the time he is through with his theatrical dates he will be about \$10,000 to the good on the results of that contest.

Kaufman and Mustaine.

Billy Delaney and Gregory Mitchell will meet today in this office to sign articles for a twenty-round contest at Marysville here, over Terry Mustaine and Al Kaufman, the date to be during the first week of April, but to be set later.

Mustaine is of the opinion that he can beat Kaufman and has been after him with the big fellow for some time. He took Kaufman fourteen rounds to beat George Gardiner and Mustaine beat him in five, this record has strengthened his belief that he is a better man than the ex-blacksmith and will send him into the ring very confident of victory.

BROOKLYN TOMMY SULLIVAN, the Only Man Who Ever Knocked Out Abe Attell. He Accomplished This Feat in St. Louis Three Years Ago. Sullivan is Seeking a Match With Owen Morton.

COMMUTERS ARE BEGINNING TO SHOW REAL CLASS FORM

Hot Weather at San Diego Has Rounded the Men to and They Are Working Very Well.

(By FRANK O'BRIEN.)

SAN DIEGO, March 19.—The Commuters have been transformed in a week from a team of error-makers to almost a perfect baseball organization. One week of temperature around 75 has thawed them all out and the three games played in three days, ending with the defeat of the No. 2 White Sox, has shown the great improvement.

There are now eighteen players here. Jim Smith is still out of the game with his sore ankle. Lewis, the new catcher, is getting along nicely and his fingers will be well in a week so he can get back into practice. Van is enthusing the youngsters with life and is after them every hour and they are showing class.

"Dutch" Altman, who is filling third where our old "Red Dog" friend once played, is a great little fielder. Hardy, the southpaw who played with Troy, New York, last year, is the other arrival to complete the squad. Delmar, the Tacoma twirler, has not signed a contract, but it is believed that he will appear in time for play.

Saturday Oakland and San Diego lined up. On the Sunday previous San Diego had won by a score of 15 to 2. It was 7 to 4 with San Diego on the short end Saturday. Sunday the teams again went to it for twelve innings and the Oaks won by 6 to 3. In the twelfth Heimtucker put it over the left field fence, scoring three.

Van had made great preparations for the No. 2 White Sox. Wright is pitching fine ball and he sent him in to open. The score was 3 to 2 with Oakland in the lead when Carnes went into the box in the fifth. With the figures standing the same and two of the White Sox down in the ninth the crowd started to leave. It was brought back in a second, however, by a wild shout. Lajeune had placed it out in the ocean for a homer and the score was tied. Oakland could do nothing in the last half of the ninth and blanked the Sox in the tenth. It was in the last of the tenth that Heimtucker came to bat with Van on first and sent the sphere over the right field fence. That's how the White Sox went to defeat.

Altman looks the ball player all through and is a clever worker. Though in training but one day before the Sox game he lined out a two-bagger and covered his bag without error. Third base will be greatly strengthened this year. "Heavyhitting" Heinie Heimtucker. That's what they call him here and Heinie is certainly putting some force into the ball when it meets his willow. "Truck" will have to hustle to keep batting hours this season.

There is a bunch of good hitters with the team this season. Van has his eye on the ball and is placing it irregularly. Haley and Cook are alive with the big stick, and will be heard from. Coe has the Portsmouth V.A. player and Van says he will have to make a place for him. He is putting up a finished article of ball and will probably be used as utility man at the opening.

Conroy, the Hoboken player, has been at indoor ball all season and has hardly located himself yet. He puts through a pretty hit every little while, but is not certain in the field. He has been in left. Wright seems to be in best condition of the twirlers. Carnes and Quick are doing well for the old timers. McFarland, the Texas leaguer, is getting in condition. The team will be fit and ready for the opening at Los Angeles next month.

Fighter Dies From Injuries
ST. JOSEPH, Mo., March 19.—Leck Allen, a local prize fighter, died today from injuries received last night in a boxing match with Fritz Gutsenberg, professionally known as "Young Rhodes" also of St. Joseph. The match was before the Eagles and was witnessed by policemen and other peace officers. Allen collapsed in the fifth round and was taken out unconscious. Rhodes was arrested today and the coroner will hold an inquest.

Officers of the Eagles lodge may be arrested. The fatal bout was a preliminary to a fifteen round go between Tony Haller of St. Louis and Willie McNamara of St. Louis, in which Haller received the decision.

Seals Ready for Some Real Work
BAKERSFIELD, March 19.—The San Francisco baseball squad, including twenty-one men, arrived in Bakersfield last night in charge of Captain Mohler. They will put up at the Southern Hotel.

It is the intention of the Seals to get out and do a deal of signal practice today and for the few following days. The park here is in fine shape and the weather is beautiful. The Seals are in great shape already, and Captain Mohler believes that they will be able to hold their own with any team in the Coast League.

Fine Coursing at Ingleside Park
Ingleside Park will be the scene of some fine coursing Sunday afternoon. There are two stakes down for decision and many high class canines will contest.

Ball Players May be Fined
CINCINNATI, March 19.—The National Baseball Commission today directed the secretary of the commission to communicate with the seven national agreement players who have been playing in games with clubs in the California State League, which is not under the national agreement, demanding that they show cause why a fine of \$100 shall not be assessed against them for participating in such games. The commission has been notified that the following players have participated in games with that league: Chase, New York Americans; Moriarty, New York Americans; Baum, Philadelphia Nationals; Waterbury, Boston Nationals; Nelson, Tacoma Club; McHale, Denver Club; Stanage, Newark Club.

Wright Wins From Jackson
CHICAGO, March 19.—Harry Wright of San Francisco is playing fine billiards in the amateur tournament here. He defeated Clarence Jackson of Chicago 400 to 201. Wright's average was 14-22-27. Jackson averaged 11-4-27.

Olympic Athletes to Meet California
The track team of the Olympic Club will meet the representative of California on the latter's track at Berkeley Oval next Saturday.

Amateur Notes

The Standards will cross bats with the Allendale team on Sunday, March 22. The Standard line-up is: Gorman, catcher; Casey, pitcher; Sisco, first base; Howe, second base; Partello, shortstop; B. Martin, left field; Davis, center field; Devine, right field. Address all challenges to A. B. Martin, 1225 Peralta street, Oakland.

Native Sons Win From Pensacola

Last Sunday the Native Sons team of Athens Parlor, No. 195, N. S. G. W., went over to Goat Island and played a return game with the Pensacola team, defeating the sailors 6 to 4 in a well-contested game. The Natives put up their usual strong game, both in fielding and at bat, lining out fourteen hits. The features of the game were the fielding and hitting of Williams and McGlade for the sailors, and the battery work of Flynn and Volquardsen for the Natives. The Native Son catcher distinguished himself both at bat and behind the plate. Murphy, at short for the Natives, also had his batting eye with him, lining out three safeties and stealing bases like a big leaguer.

Sunday the Natives will take a trip to Monterey and try to come home with another game to their credit. The boys will take the 7:30 train from First and Broadway.

On Sunday, March 29, the Natives will journey up to Vallejo, after which Manager White will have completed his schedule for this month.

The Natives took a trip to Monterey with their strongest team and will have in their line-up Al Poulter, the popular policeman.

A party rate of \$2.50 for the round trip has been secured by Manager White, which undoubtedly will be taken advantage of by the friends of the players.

Polydeucean Club Can Hold Contests
BERKELEY, March 19.—The Polydeucean Club of Berkeley gained its point yesterday when a meeting of the board of trustees, by a vote of 5 to 2, favored allowing boxing clubs to incorporate and give exhibitions. A large delegation of women from the Town and Gown Club were interested spectators during the meeting.

DICK FITZPATRICK, a one-time noted boxer of Chicago, is out of the game for good and all. A friend of Fitzpatrick in Emeryville received a letter from Dick, writing the fighter told of how he received a very serious accident to his knee. Fitzpatrick fell on the pavement and broke his knee cap. The leg is now stiffened and has forced his retirement from the ring.

Two preliminary bouts will open the evening's sport.

Poly Defeats Sacred Heart
The baseball team of the Polytechnic high school defeated Sacred Heart of the Golden Gate Park diamond in San Francisco yesterday by a score of 9 to 8. Errors were frequent on both sides and contributed largely to the run column of each team.

FIREBALL IN HARD DRIVE WINS MADRONE HANDICAP

The Mist Outgames Burning Bush for the Place--Rose Queen Hangs Up New Four Furlong Record.

BY LEE DEMIER.

Eight high class speed burners paraded to the post in the Madrone Handicap, a feature of interest on yesterday's racing program, and a thrilling contest developed. Four horses flashed past the judges in a driving finish, but Fireball, the favorite, would not be denied, and hanging on with the tenacity of a bulldog, scored by the best part of a length from the runner-up who with Entre Nous shared second honors in the betting ring. The Mist with clear sailing in the early running might have defeated the winner and was going strongest at the end. Burning Bush finished just ahead of Cloudlight for the short end of the purse. Entre Nous ran a good, consistent race and her field all the way.

John H. Sheehan, off flying, ran right back to his last race, and easily held his field safe in the initial event, winning the Oaks. The latter ran a Wilson and Prince Brutus closed with a tremendous rush and the former grabbed the place by a nose. Balls of Irons, the favorite, got in a mix-up at the start and could never get to the front.

Rose Queen demonstrated that she is a filly of some class and was blocks the better of the youngsters which raced in the second event. Sheer got the shifty daughter of Kingston away flying and setting a dazzling pace, made everything in the race dizzy. The latter ran a Wilson and Prince Brutus closed with a tremendous rush and the former grabbed the place by a nose. Balls of Irons, the favorite, got in a mix-up at the start and could never get to the front.

Under a clever ride Eduardo, the second choice, easily annexed the second affair (third on the card). Menasco Maid finished second, four lengths in front of Royal Maxim, who led the race. The latter was a dangerous unit in the final strides. Kono the choice, made a dull showing. Her race does not.

Under her urging all the last part, Henry O got up in time to catch Fisher in the Oaks, and won the fifth by a nose. The latter would have won but for the boy's overconfidence; as best, Confederate hung on long enough to be third.

Mike Jordan was gamest at the finish and won the final race going away from the grandstand. The latter ran a cracking good race at a distance she does not like. Patriotic finished on the limb.

Barney Schriber donated \$3000 to the betting public yesterday.

"Red" Walker burnt up the ring on the win of Henry O.

How J. Delehanty Queered Himself
Jim Delehanty, the clever second sacker of the Washington club, is playing ball down in Florida, and has been down in that Ponce de Leon section for a couple of months, as every one perhaps knows who keeps posted on sports news. When this fact was first published in the Ohio papers, Bill Bradley of the Cleveland team happened to be in the town of Toledo, where Addie Joss, the elongated twirler, edited a paper in the winter season, and in whose office the versatile Roger Bresnahan can always be found, for the New York catcher was born in Toledo and has a summer home across on Kelly's Island.

No sooner had Bill Bradley read about Delehanty's being in Florida than he struck out for the newspaper office where Joss is employed, and, on coming into the room, he received a merry laugh from both Joss and Roger Bresnahan.

"Say," cried Bill after the salutations were finished, "did you hear about the bad break that Jim Delehanty has made?"

"No, what did he do?"

"Well, he has just queered himself with all the Irish fans throughout the country," cried Bradley. "He has gone down to Florida and become an orange-man."

McGraw Will Quit The Racing Game
Last fall when the ponies were running at Pimlico a lot of ballplayers used to show up every race day. One of the most inveterate racetrack habitues is John McGraw, the scrappy manager of the New York National team. Last fall things at the Pimlico track ran badly for the bettors, although the bookmakers had no reason to complain, and in consequence the men who looked the wagers were a pretty grumpy looking lot the whole of this rather disastrous meet.

One afternoon just before the last race McGraw, Joe Kelly, Jack Dunn, Robinson, the old Baltimore catcher; Seybold of the Athletics, and George Carey, once a Washington first baseman, were all leaning against the judges' stand when who should come up to the group but Kid Gleason, the Philadelphia second baseman, and, shaking him by the hand, cried:

"Aha, Johnny! still following the horses, eh?"

"Yes," scorted McGraw, "and I've come thousands to the bad, who if I ever catch up with them I'm going to quit."

San Mateo Club Has Bouts Tonight

The San Mateo Athletic Club will have a night of boxing at Athletic hall in San Mateo tonight.

Some classy boys are down on the cards, and there will be twenty-four rounds of fighting, during the evening.

The main event is a six round go between Christ of San Mateo, and George Elliott of San Francisco. They are to fight at 142 pounds and should put up a good go.

The semi-bling up will be a six round boxing bout between Mark where our old "Red Dog" friend once played, is a great little fielder. Hardy, the southpaw who played with Troy, New York, last year, is the other arrival to complete the squad. Delmar, the Tacoma twirler, has not signed a contract, but it is believed that he will appear in time for play.

Saturday Oakland and San Diego lined up. On the Sunday previous San Diego had won by a score of 15 to 2. It was 7 to 4 with San Diego on the short end Saturday. Sunday the teams again went to it for twelve innings and the Oaks won by 6 to 3. In the twelfth Heimtucker put it over the left field fence, scoring three.

Van had made great preparations for the No. 2 White Sox. Wright is pitching fine ball and he sent him in to open. The score was 3 to 2 with Oakland in the lead when Carnes went into the box in the fifth. With the figures standing the same and two of the White Sox down in the ninth the crowd started to leave.

Altman looks the ball player all through and is a clever worker. Though in training but one day before the Sox game he lined out a two-bagger and covered his bag without error. Third base will be greatly strengthened this year. "Heavyhitting" Heinie Heimtucker. That's what they call him here and Heinie is certainly putting some force into the ball when it meets his willow. "Truck" will have to hustle to keep batting hours this season.

There is a bunch of good hitters with the team this season. Van has his eye on the ball and is placing it irregularly. Haley and Cook are alive with the big stick, and will be heard from. Coe has the Portsmouth V.A. player and Van says he will have to make a place for him. He is putting up a finished article of ball and will probably be used as utility man at the opening.

Conroy, the Hoboken player, has been at indoor ball all season and has hardly located himself yet. He puts through a pretty hit every little while, but is not certain in the field. He has been in left. Wright seems to be in best condition of the twirlers. Carnes and Quick are doing well for the old timers. McFarland, the Texas leaguer, is getting in condition. The team will be fit and ready for the opening at Los Angeles next month.

Harry Hari in Splendid Form
Harry Hari, the well-known pool player, made a wonderful record at the Bon Air parlors in San Francisco last night when he made a run of 127 without a break. This beats the record of 113 balls made by Grant Eby of the Bon Air in San Francisco, but Hueston will be unable to come out because he is engaged to play in the world's championship tournament in Chicago.

Hart is to play Joe Carney of San Francisco for \$250. The date of this match is to be announced later.

Many Fighters in San Francisco
One can hardly turn on his heel in San Francisco these days but to bump into a prize fighter. Right now San Francisco is the shrine of a bunch of pugilists and nearly every noted scrapper in the country can be seen on Fillmore street these days. Some of the well known names are: Philmore street are: Buckey McFarland, J. E. Britt, Johnny Coulton, Jack O'Keefe, Jack and Mike (Twin) Sullivan, Battling Nelson, Brooklyn Tommy Sullivan, Terry Mustaine, Frank Mantell and Mysterious Billy Smith, headed by the usual colony that makes San Francisco its home.

STANFORD FACES STUDENT STRIKE

Co-Eds Threaten to Join Men in General Walk-out at University.

STANFORD UNIVERSITY, March 19.—A students' strike now threatens Stanford as the result of twelve students being suspended for the recent demonstration against the anti-liquor faculty rule. Co-eds have promised to join the strike and the university authorities face a critical situation.

The suspended students are: Fred R. Lanagan, '08, Palo Alto; captain track team '08; intercollegiate and coast record holder of the pole vault.

Admit Their Guilt.

The petition signed by the 24 men who took part in Thursday night's parade, which brought the controversy to a head, has been presented to Professor A. B. Clark, chairman of the committee on student affairs. The 24 signers state that they are equally culpable with the twelve students suspended and ask that the twelve be reinstated or the 24 suspended.

A petition has been circulated on the campus, appealing to the faculty to rescind its order suspending the twelve students. This petition bears the signatures of young women as well as the men.

The faculty committee is placed in a peculiar position and its decision is anxiously awaited. Now 24 students have confessed that they participated in the demonstration. The faculty committee faces two alternatives: It can either suspend the 24 or reinstate the twelve.

In case the 24 are suspended, student activities for the term will practically come to an end, as the most prominent men in the university are numbered in the list. A movement has been launched to induce the entire student body to go on strike in case the 24 are suspended.

"HAS DEVILISH SOUL," SAYS LAWYER OF MRS. A. M'KEE

"Hysterical," "Shameless" "Immodest" and "a Liar," Claims Counsel for Husband in Parisian Court.

PARIS, March 19.—"Hysterical," "shameless" and "immodest" were terms applied to Mrs. Cornelia Baxter-Tevis-McKee by Maitre Labori, counsel for her husband, A. Hart McKee, in the divorce proceedings yesterday in the Palais de Justice.

For five hours the attorney dragged Mrs. McKee's name through a legal harangue, picturing her as a degraded woman and incidentally declaring her husband to be "loving."

"What a liar she is," exclaimed the lawyer in his tumultuous talk.

"Under a fair, gracious exterior she has a devilish soul. Her beauty conceals a peridious, false and cruel nature," added the advocate, after reading several quotations from the testimony which was heard in secret session.

M. Labori declared twenty times that Mrs. McKee had lived with A. Hart McKee several months before their marriage, though the only evidence given in support of this assertion was that Mrs. McKee's aunt was living with her as chaperone in the villa at Monte Carlo.

Tells of Quarrel. M. Labori described the parting quarrel in the Chateau de Varennes, at which there were present Miss Lillie Lawler, the Marquise Guehlme and Mr. and Mrs. McKee. The quarrel occurred during a game of bridge. Mrs. McKee had no trump and lost and when Hart reproved her she fled to her bedroom and locked the door. Next day she went to Paris, whence she wrote her husband, saying she would never live with him again.

When McKee arrived in Paris he found she had broken open the safe in his room, and, according to the attorney, taken away all the papers and documents that might aid in his defense, and therefore, he could not bring any evidence against the Marquise Guehlme, although he had seen the marquise and his wife together several times under suspicious circumstances.

M. Labori also charged Mrs. McKee with intimacy with Lord Roslyn before she became engaged to McKee. He had nothing but a letter from a Folkestone hotelkeeper to give color to this charge. He dwelt upon the alleged infidelity, however, to hideous length. The accusations Mrs. McKee has made against her husband Labori denied for him in detail. To disprove her statement that he forced her to live for weeks on a sardine diet, the lawyer said McKee had frequently given her \$300 worth of flowers a month.

Infidelity Charged. The truth is, said Labori, "this woman has all along played false to a man who rescued her, restored her good name to her, treated her kindly and suffered much for her. Why, her whole life has been shameless. When only sixteen she was betrothed to a lawyer, but threw him over for a richer man."

"Then we find her as Mrs. Tevis receiving letters from Lord Roslyn, beginning: 'Dear, Dear Constance,' depicting her expected engagement to McKee and ending: 'Always your devoted friend.'"

"How she forced McKee to divorce Lily Sutton at an expense of \$400,000 in order to marry her, is well known to history. How she has tried to throw him and has used her father in the United States to prejudice opinion against him there is known by the newspapers of the United States."

Frequently Labori aroused laughter among the Americans through his ignorance of customs and phrases. For instance, he demanded heavy damages against Governor Buxton, Mrs. McKee's father, whom, he said, was a "Kontinency"—meaning thereby that he was forty-nine years old. Labori asked the court to render a decree of divorce for McKee instead of his wife. He demanded also the custody of the child he is charged with having tortured.

Attacks Press.

The strongest complaint against Mrs. McKee was that she had applied to the sympathy of the public and thus forced Hart McKee to bring counter suit for a full divorce, the guardianship of his child, and for the honor of his family name.

Maitre Labori displayed copies of a United States paper containing an interview with Mrs. McKee giving details of Hart's alleged cruelties. Many other newspaper stories relating to the progress of the case were read. The reading of this evidence consumed an hour, and the judges and audience were deeply interested.

hour, and the judges and audience were deeply interested.

When M. Labori concluded the reading he exclaimed triumphantly:

"It is high time the French court taught the people of the United States a lesson wherever even the court smiled."

The lawyers crowded around and studied the portraits of Mrs. McKee in the American newspaper.

"Loving Husband."

Labori depicted Hart McKee as a loving husband and tender step-father. His chief task seemed to be the reinstatement of McKee in the public esteem, rather than to disprove the charges brought by Mrs. McKee's counsel, Maitre Barbeau. Letters from United States Ambassador, Leitchman and Charles M. Schwab were read to show the high standing of Hart McKee's father, Sellers McKee of Pittsburg, and letters from Mrs. McKee, found in a forgotten drawer, were introduced to show her passionate love for her husband, from whom she is now demanding a separation.

All these French people seem to think I desire to get rid of this brute in order to live with Guehlme. They can't understand an honest American woman wanting merely to get rid of a brutal husband to live quietly with her children."

Guehlme is well known in Paris as a big pertumery man with an eagerness to marry a rich American girl or widow. The next hearing will be on March 25.

At the conclusion of the court's session, Mrs. McKee declared that she considered her case as good as already won. She laughed in derision at the charge of intimacy with Lord Roslyn, but seemed annoyed at the mention of the marquise. She said:

"All these French people seem to think I desire to get rid of this brute in order to live with Guehlme. They can't understand an honest American woman wanting merely to get rid of a brutal husband to live quietly with her children."

Guehlme is well known in Paris as a big pertumery man with an eagerness to marry a rich American girl or widow. The next hearing will be on March 25.

At the conclusion of the court's session, Mrs. McKee declared that she considered her case as good as already won. She laughed in derision at the charge of intimacy with Lord Roslyn, but seemed annoyed at the mention of the marquise. She said:

A POOR MAN'S BRAND.
"What has become of that 'Hodcarrier's Delight' you used to have such a run on?"
"The 'Hodcarriers' are smoking perfectos these days," answered the tobaccoist, "so I've renamed the old brand. I call it 'Pride of Wall Street' now."

FOR YOUR SUNDAY DINNER
try the following delicious dessert:
1 cup English Walnut meats.
1 1/2 cups Jell-O, any flavor.
1 1/2 cups sugar.
1 1/2 cups milk.
Dissolve the Jell-O in a pint of boiling water. When cool and just commencing to thicken stir in the nuts and sugar. Serve with Whipped Cream, Jellys. The walnuts, eggs and Jell-O can be bought at any good grocery. This makes enough dessert for a large family and is very economical.

FRATERNAL

GREAT INITIATION OF WOODMEN AT IDORA PARK

Head Consul Boak Will Preside Over Ceremony and Members Will Come From All Over the State.

Plans are complete for the production of a one-act farce called "An Old Maid's Convention" to be given April 2 in Masonic Hall, Twelfth and Washington streets, by Oakland Chapter, No. 140, Order of Eastern Star.

Nellie Bliss James, associate matron, is chairman of the entertainment committee. Those who are to participate in the performance are Mrs. Verice F. Cushing, Miss Charlotte Towle, Miss May Twombly, Miss Maud Goodwin, Miss Edna Harris, Miss Mabel Harris, Miss Catherine Curtis, Miss Mabel Kuss, John Fierling, Mrs. N. B. James, Miss Myra Wetheren.

The officers who are working zealously for the success of the affair are Miss Mabel Kuss, treasurer; Miss Charlotte Towle, Martha, Mrs. Mary N. Petty, worthy matron; Mrs. Nellie Bliss James, associate matron.

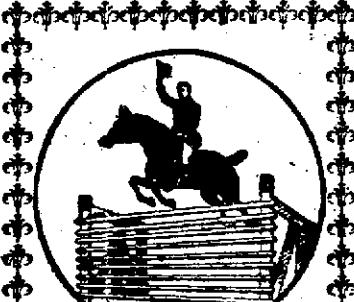

Big initiation—Suspended over the entrance to the office of one of the largest manufacturing plants in the United States is a sign "Do it now, tomorrow may never come." A majority of the members of Oakland Camp No. 34, W. O. W., must have gazed at one time or another upon that sign, and profited thereby, for last Saturday night, as it

THOMAS M. ROBINSON, HEAD MANAGER PACIFIC JURISDICTION, W. O. W.

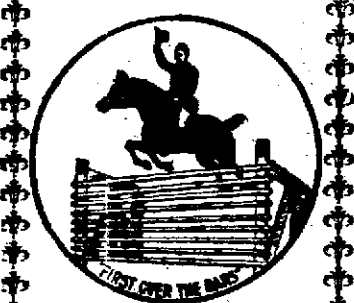

has ever been, quite a number of applications were favorably acted upon. There is a double incentive in all this activity. It is desired to make Camp 34 stronger and also make the order greater than ever. To remember, neighbors, when seeking new timber to impress upon the candidate that the chance may never be offered them again to receive the degree from a hand of the head council himself, for as all know I. J. Boak, head consul, will be here in company with all the head camp officers on April 9, and on that evening will initiate the largest class of candidates ever gathered together in one convocation.

This is of more than ordinary interest. Here will gather Woodmen from all over from the North, from the South, from the

East and from the West. A splendid showing for the greatest fraternal order, the order of degrees, not words. The initiation will be held at Idora Park; here under the mighty trees, at symbols for that night, will be held the greatest and most interesting ceremony California has ever seen.

The arrangements are in the hands of the Alameda County Visiting Committee, composed of representatives from all the camps in Alameda county. The degree teams of Oakland, Forest, Pacific, Altes and Centerville camps will all have an equal share in the ritualistic work to be exemplified by Boak and his associate officers.

Neighbors can bring their families for the show in the theater will be for them. "The Wizard of the Nile," modernized under the title of "The Wizard of Denver." It will be a typical Woodman gathering. They will own the park that day and night. The initiation will begin promptly at 8:45, so it behooves every neighbor to be on time.

Get together, neighbors, remember the head consul wants candidates for that night, prevail upon your friends, to join, impress upon them that it is the duty of every man to so arrange his affairs that if anything should happen to him, his family will be provided for. What better way could be found than by joining the Giant of the West, the Woodmen of the World?

V. M. I. Prosperous—On last evening the regular meeting of this council took place at various business, with transacting, including the presentation of several applications for membership.

Brother Sousa, who received an injury some time ago, is again able to attend to duties.

An invitation has been extended to members of No. 6 to attend installation ceremonies at Crockett on March 25, and no doubt a large delegation will take advantage of the trip.

Immediately after the adjournment of the regular meeting on Thursday evening the gaze was turned over to Speaker G. L. Courtney, who had arranged a short, but very pleasing program.

Each member received a hearty applause. First Vice-President E. Cronin favored the members with a very clever and humorous recitation. Brother Frank Flynn, a soloist of ability, rendered the favorite ballad, "Love Me and the World Is Mine," in a splendid manner. Speaker Courtney was entertained with an impressive and pretty dramatic selection.

Reports from various parts of the country testify that the Y. M. I. is rapidly increasing in councils and members, and placing itself on an even better footing than in the past. Several new councils in this part are now flourishing, and during 1908 our fraternal order expects to make a remarkable stride.

Order of Washington—Order of Washington, local union No. 277, the sessions of this union, which are held in K. of P. Temple, are increasing in interest. Candidates are being put through the initiatory degree. The women of this union have organized a branch of this society and call it a "Martha Washington Club." Camrader Rosanna Law has been elected president, and many social gatherings are planned for the future.

Workingmen—Pacific Lodge No. 1 meets this evening in Woodmen Hall, 521 Twelfth street, at 8 o'clock.

Last Thursday evening Dr. H. W. W. Hulme gave a very interesting and instructive address on the bubonic plague question, showing by figures its deadly character when once it gets a foothold in a community and the great necessity for cleanliness in order to prevent it.

At the close of the lodge the entertainment committee served light refreshments, which were enjoyed.

Captain of Police Petersen is booked to talk some evening shortly on a subject that will be of interest to all.

A delegation from the up-town lodges will go to West Oakland this evening to pay a visit to Occidental Lodge No. 6, Lyon Relief Corps—Lyon Relief Corps No. 5, U. R. C., will give a whist tournament on Tuesday after-

noon, March 24, at 2:30 p. m. at Loring Hall, corner of Eleventh and Chestnut. The prizes are elegant, and pieces of hand-painted China. The committee in charge is composed of Mrs. Dr. Hamilton, Mrs. R. Hickman, Mrs. A. Kieso and Mrs. B. Schultz.

Royal Neighbors—Now that the State meeting has been successfully carried off and Golden Gate Camp has this matter off its mind, it is turning its attention to home affairs. Last Friday night the drill team of Golden Gate Camp No. 2938 visited Good Fellowship Camp of San Francisco, and after the regular work gave an exhibition drill. The Camp is now making arrangements for a large class adoption to be held in the near future. Also arrangements have been made for a joint social of the Golden Gate Royal Neighbors, and Golden Gate M. W. of A. Foresters to be held on the evening of March 26, at Loring Hall, 531 Eleventh street. All Royal Neighbors and Modern Woodmen and their friends are cordially invited to attend. A good time is promised all.

Native Sons—Oakland Parlor No. 50, N. S. G. W., elected delegates to the Grand Parlor last Wednesday evening. There were a number of candidates, and much enthusiasm was manifested in the selection. The trip to the Yosemite Valley, where the Grand Parlor meets this year, was the prize to which all aspired. The following named were the successful candidates: George P. Clough, W. H. H. Gentry and E. P. Cook; alternates, W. L. Paulson, R. S. Wilson and R. B. Wharton. The delegates-elect are conscientious and enthusiastic Native Sons, and will exert their best efforts to secure the next ninth of September celebration for Oakland.

Fountain Lodge—A large gathering of representatives of Odd Fellows Lodges in the hall of Fountain Lodge No. 138, I. O. O. F., on Monday, March 16th, the occasion being the commencement of the second contest for

the district trophy, which was awarded this lodge last term for the best percentage of the lodges in District No. 64 in conferring the initiatory degree.

The trophy is a valuable silver loving cup, purchased by the lodge in the district, and requires three contests for permanent ownership. The third competition will be decided next term when the judges will make the award to the lodge making the best record for the three contests.

A district meeting will be held on April 20th under the auspices of Fountain Lodge, corner Eleventh and Franklin streets, when the judges will decide which lodge is the winner in this contest.

An illustration of what the young members can accomplish if they will attend their lodge meetings, study the ritual, and take an active interest in the work of the order, was exemplified by the work of the team that evening, it being composed of nearly all young men in their twenties; and better work is seldom, if ever seen, than that rendered that evening. The brothers who conferred the degree were the regular officers of the lodge, as follows: A. P. G. J. T. Riley, N. S. W. A. Sturgeon; V. G. Newman; Jensen; Conductor, Thos. Powers; Warden, R. G. Washburn; R. and L. S. S. O. T. McCoon and F. T. Lundin; I. G. L. Jepson; O. C., O. Rohl; and the usual supporters and attendants.

The team was under the direction of drillmaster F. G. D. A. Price, and the perfect union of the members in some elaborate floor work was highly applauded. A pleasant incident was a visit from the baby lodge, North Oakland No. 401, G. J. H. Ritter, the N. G. introduced his delegation of twenty-two members, in his usual fraternal way. They are an enthusiastic band of brothers and received a hearty welcome from the members.

During the Good of the Order, congratulatory speeches were made by Col. Ritter, D. G. M. Reiser, Major F. Baker of Australia, P. G. Ludlow of San Francisco; Jesse Walton, No. 198; G. W. Hathaway, E. The General Demand

of the Well-Informed of the World has always been for a simple, pleasant and efficient liquid laxative remedy, known value; a laxative which physicians could sanction for family use because its component parts are known to them to be wholesome and truly beneficial in effect, acceptable to the system and gentle, yet prompt in action.

In supplying that demand with it excellent combination of Syrup of Figs and Elixir of Senna, the California Fig Syrup Co. proceeds along ethical lines and relies on the merit of the laxative for its remarkable success.

That is one of many reasons why Syrup of Figs and Elixir of Senna is given the preference by the Well-Informed. To get its beneficial effect always buy the genuine—manufactured by the California Fig Syrup Co. only, and for sale by all leading druggists. Price fifty cents per bottle.
